49th Year

LOS ANGELES ROSE
UNSURPASSED IN BEAUTY OF COLOR

L.W. HALL
COMPANY, INC.
ROCHESTER, N. Y.

HALL MARK—A designation such as the mark of Sterling indicating purity or unusual merit, originally associated with precious metals.

Now in widespread use to denote an institution or a class of merchandise above the commonplace.

L. W. HALL CO., INC.
The Hall Mark Nurseries

A Personal Message

IN presenting our new and revised Garden Book for 1928 our first thought is to extend our sincere thanks to our old customers.

This season marks our 49th year in business, and to our new customers such long continued service should be a guarantee of reliability, quality and fair dealing.

To beautify our homes is a common urge, and this book is offered as an aid in decorating your grounds so that you may derive all the pride and pleasure possible from your home.

We take pride in the variety of stock we have to offer you, and in its magnificent quality. To the average person, a tree is a tree, a plant is a plant, and the most important item, **quality**, is entirely overlooked. When results depend on quality, as they surely do in nursery stock, your only guarantee is the integrity and experience of the firm with which you are dealing.

On this page is illustrated one of our Climbing Rose bushes as dug in the nursery and is a typical specimen of "Hall Mark" quality. Note especially its sturdy, vigorous root system.

We have since the beginning of our business made it our aim to describe our stock as accurately and honestly as possible, and our statements of quality are firm beliefs and guarantees, backed by years of success through satisfied customers, whom we have never failed.

Year after year these valued customers and friends order their stock from us, knowing that they will receive the finest quality stock from a Nurseryman of the highest integrity. They stand ready and willing to convince you of what they know to be true. If you wish to "investigate before you buy" we will gladly supply references.

L. W. Hall, Jr.

President.

L. W. HALL COMPANY, Inc.

Roses

The love of Roses is universal and it is impossible to exaggerate their beauty. The very name suggests beauty and fragrance, and it is now possible to have Roses all summer, even with but a small garden. The Roses we offer are EXTRA HEAVY PLANTS FOR IMMEDIATE EFFECT, strong, 2-year, field grown plants that grow for you and produce an abundance of bloom the first summer.

CULTURAL DIRECTIONS

Soil and Location. Roses require sunshine. They do well in any good garden soil. Avoid sand, too much clay, or ground which is stagnant. Be sure the bed is well drained. Enrich with decomposed stable manure; cow manure is preferable. Work this well into the soil. Do not put any clear manure in the holes with the plants. Water freely only in dry weather and then in early morning or late afternoon.

Planting. Plant Hybrid Tea and Polyantha Roses 18 to 24 inches apart, Hybrid Perpetuals and Rugosas 2½ to 3 feet, and Climbers at least 6 feet. Consider the expected growth and provide room for it. Plant about 2 inches deeper than the "crown" from which the shoots rise. This deep planting is essential. Dig a good, large, deep hole. Spread the roots out as much as possible, and when the hole is nearly filled tread the soil firmly with the foot. When planting is finished a good soaking with water will prove beneficial, should the ground be dry. Then mulch well with coarse manure and Nature will do the rest.

All roses should be cut back from 1-3 to 1-2 when planted, and roots pruned smoothly, cutting off the ends where bruised by digging and shortening others. This is as important as pruning the top. The ground should be stirred frequently. Roses need good cultivation.

The Most Popular Dozen

Chosen by American Rose Society in Referendum Vote, 1926.

Radiance	Columbia
Ophelia	Gruss an Teplitz
Red Radiance	Souv. de Claudius Pernet
Duchess of Wellington	Mad. Ed. Herriot

THE BEAUTIFUL PINK RADIANCE ROSE
One of the Best for Every Garden

Superb Everblooming Roses

For years we have specialized in offering our customers the world's best varieties of Roses, presenting a marvelous selection of every imaginable shade and color, and of exquisite beauty and charm.

Strong, 2-year, field grown plants. Price, except where noted, 85c each; \$8.00 per 10; \$75.00 per 100.

AARON WARD. Beautiful rich yellow, changing to pinkish fawn.

AMERICA. Immense rose-pink flowers, sweetly scented, very lasting.

BETTY. Glorious coppery rose overspread with golden yellow.

BRITISH QUEEN. One of the finest white Roses in existence. Large, full flowers of Tea Rose form.

COLUMBIA. Lovely new pink Rose, very fragrant. (See illustration.)

CONSTANCE. New. Notable for richness of color. Full, orange buds, streaked with crimson, opening to large, globular flowers of intense golden yellow. \$1.00 each.

CRUSADER. Beautifully formed, big double blooms of rich, velvety crimson.

DUCHESS OF WELLINGTON. Intense saffron-yellow, stained crimson. Long pointed buds, wonderfully fragrant.

ELDORADO. A most desirable new golden-yellow Rose of great merit. Flowers large, very fragrant. \$1.00 each.

ETOILE DE FRANCE. A grand deep red Rose which blooms all summer. Flowers are large, full, velvety crimson and richly fragrant.

FRANCIS SCOTT KEY. A glorious Rose. Perfectly formed buds opening into blazing red flowers of largest size, full and double, very fragrant.

GOLDEN EMBLEM. A beautiful and dependable clear yellow rose. \$1.00 each. (See illustration).

GOLDEN OPHELIA. Rich apricot yellow. Buds beautiful. Fine for cutting. \$1.00 each.

GORGEOUS. Flowers large and full. Deep orange-yellow, heavily veined with reddish copper. One of the most striking Roses in existence, delightfully fragrant.

GRUSS AN TEPLITZ. Brilliant scarlet, shading to velvety crimson.

HOOSIER BEAUTY. Glowing crimson-scarlet with darker shadings. Large and double, with velvety petals. A magnificent bloom of dazzling brilliance and delicious fragrance.

H. V. MACHIM. Gorgeous flowers of large size, intensely black-grained scarlet-crimson, carried on rigid, sturdy stems, with ideal foliage.

IMPERIAL POTENTATE. New. Wonderful in bud, opening to large, well-formed flowers of crisp, glistening rose-pink with silvery suffusion at base of petals, sweetly scented. Of such a bright, lively pink it seems to shine and dance in the sunlight. \$1.00 each.

J. K. L. MOCK. Clear imperial pink blooms of largest size imaginable. (See illustration).

One of our healthy, vigorous everblooming Roses as dug in the nursery. For convenience in handling and packing, some of this growth will be cut back before shipment. But for success in your planting, be sure to prune further both roots and top as directed above.

THE HALL MARK NURSERIES

Roses—Continued

THE ENTRANCING GOLDEN EMBLEM

KAISERIN AUGUSTA VICTORIA. Soft, pearly white, shading to creamy yellow. Very double, of exquisite formation. Fragrant.

COLUMBIA
The Famous Columbia Rose, a Gem among Pinks

KILLARNEY QUEEN. A cerise-pink sport of the well known Killarney.

LADY ALICE STANLEY. Shell-shaped outside petals of deep coral-rose, inside pale flesh. Large, fragrant.

LADY HILLINGDON. Beautiful apricot-yellow shaded to orange.

LOUISE CATH. BRESLAU. Long buds of coral-red shaded with yellow, opening into large, full, fragrant flowers, presenting novel shades.

LAURENT CARLE. A large, brilliant, velvety carmine Rose of perfect form and intense fragrance.

MISS LOLITA ARMOUR. Large, fragrant, full and double flowers with petals of great substance, deep coral-red with golden suffusion. \$1.00 each.

LOS ANGELES. A magnificent Rose, color a luminous flame-pink, toned with coral and shaded with gold at the base of petals. \$1.00 each. (See illustration on front cover.)

MME. ALEXANDRE DREUX. Intensely yellow bud, opening to high-centered flower with sharply reflexed petals of deep yellow splashed with orange. Plant is moderately vigorous, wiry; free flowering. A flower of unique color and great beauty of form. \$1.50 each.

MADAME BUTTERFLY. A glorified Ophelia; buds larger, color tints greatly intensified; harmony of bright pink, apricot and gold. Perfect in form and texture, deliciously fragrant. Foliage and habit unsurpassed.

MADAME EDOUARD HERRIOT (Daily Mail Rose). Artists rave over this variety. Gorgeous combination of terra cotta and bronze with flame shadings, almost impossible to describe.

MME. JULES BOUCHE. One of the finest white garden Roses. Superb, fragrant flowers, sometimes shaded light blush at the center. Vigorous grower, a most persistent bloomer, and heartily recommended as one of the best of its color.

MRS. CALVIN COOLIDGE. A clear golden yellow Rose, deepening in color, especially in the center, as the flower expands, and retaining its color until the last, not fading. A great producer of fine blooms; excellent for cutting. \$1.00 each.

OPHELIA. Brilliant salmon flesh shaded with rose, with a heart of glowing peach-pink and orange-yellow blendings. Fragrant; faultless in form and color.

PADRE. New. Its beautiful and novel coloring differs from all others. Brilliant coppery-red, flushed with yellow at the base. Will produce more flowers than any other. Especially fine in the bud, for cutting. \$1.25 each.

PREMIER. Clear, pure shade of rose-pink. Immense blooms of wondrous beauty.

THE QUEEN ALEXANDRA. Spectacular new Rose of absolutely unique colorings. Bright red petals curving crisply against a background of old gold. Full, fine-formed blooms, bewildering in their half-open beauty, and developing into flowers attractive beyond description. \$1.25 each.

RADIANCE. Beautiful blendings of carmine-rose; opal and coppery reflections.

RED RADIANCE. Large, bold, double flowers of clear red.

ROSE MARIE. A grand Rose. Large, long, ideal buds which open into large, full flowers of splendid form; clear rose-pink.

SENSATION. Scarlet-crimson of magnificent shade, with blackish shadings. Extremely large, double blooms produced in great profusion on long, stiff stems. \$1.00 each.

SOUVENIR DE CLAUDIUS PERNET. Awarded three gold medals in Europe. Originated by the great Rose specialist, Mr. Pernet Ducher, and one of his masterpieces. Vigorous growth; brilliant green foliage. Long, pointed buds on long, stiff stems. Large, full flowers with elongated, deep petals; a most striking sunflower yellow, deeper in the center. \$1.25 each.

SOUV. GEORGES PERNET. Astonishingly large, new, bright colored beauty, worth a place in every garden. Its big buds disclose coppery hues, and open into enormous globular flowers of brilliant orange-pink, sweetly perfumed, very lasting. \$1.25 each.

SUNBURST. Giant yellow Rose, suffused with orange-copper. Buds long and pointed.

WHITE KILLARNEY. One of the most exquisite pure white Roses.

WILLOWMERE. A magnificent rich shrimp-pink, toning to carmine-pink toward edges of petals. Very large, full flowers.

WM. F. DREER. Soft, silvery shell-pink, golden yellow at base. In bud and half-opened flower this Rose is unsurpassed in this color. \$1.00 each.

SOUV. DE CLAUDIUS PERNET
Glorious New Yellow Rose of Unsurpassed Beauty

Wonderful New Roses of Exceptional Merit

The latest additions to our Garden Roses, created by some of the World's Greatest Rose Hybridizers. We are able to offer these to our Rose-Loving Friends this year for the first time in strong, 2-year field grown plants. As the stock of these New Varieties is limited, we suggest early reservation.

DAME EDITH HELEN. (Alex. Dickson & Sons.) Awarded Gold Medals by the National Rose Society of England and also at last spring's New York and Philadelphia Flower Shows. In this we feel more enthusiastic than over any new Rose which we have distributed since the introduction of Los Angeles, and we question if any Hybrid Tea Rose yet introduced promised to be such a valuable addition to our garden Roses as this wonderful new pink variety. The plant possesses a strong, vigorous constitution with large, healthy, dark green foliage; the flowers are produced singly on well-foliaged strong canes throughout the season, these are of immense size, composed of very substantial broad petals which curl back prettily, forming a wonderful long pointed bud which develops into a full double flower, which is absolutely perfect in every stage of development. The color is a brilliant, yet soft Rose du Barri pink and is delightfully and strongly sweet scented. \$3.00 each.

LADY MARGARET STEWART. Another marvelous introduction of Alexander Dickson & Sons awarded the Gold Medal of the National Rose Society of England at the 1926 Spring Show. A Rose of unique and distinct color, the flowers in the young stage are a deep sunflower yellow, heavily veined and splashed with orange-scarlet, with the reverse of the petals deeply suffused with carmine as the flowers develop; these colors intermingle, forming a most beautiful cadmium orange effect. The bud is long and pointed, opening to a full double flower of most pleasing decorative form and of delightfully sweet scent. \$3.00 each.

MARGARET MCGREDY. (McGredy & Sons.) Now offered for the first time. This is the third season that we have had this wonderful Rose under observation and we consider it one of McGredy's most brilliantly colored masterpieces, large, beautifully shaped, full double flowers, entirely distinct from all others in its rich coloring, which is a brilliant shade of Turkish or Oriental red, passing as the flowers age to a beautiful carmine-rose, these are borne on long, stiff stems and hold their form and beauty for a long time. \$3.00 each.

LORD CHARLEMONT. (McGredy.) Although introduced some five years since, this beautiful variety is still very scarce. It is the most gorgeous and brilliant dark red Rose we have, with flowers of the most intense clear crimson-scarlet, deepening to carmine-crimson, with almost black shadings, with perfectly shaped, long pointed buds and large, full double, sweetly scented flowers. Free growing and free flowering; a splendid Rose of exceptional richness and beauty. \$2.00 each.

MRS. LOVELL SWISHER. (Howard & Smith.) One of the American raised Roses which has come to stay, and which as a garden Rose will undoubtedly rank with such popular bedding varieties as Radiance, Red Radiance, Lady Ursula, Mrs. Wm. C. Egan, etc. It is a remarkably vigorous grower, of branching habit, well furnished with excellent foliage, freely producing perfectly formed, long, shapely buds with nicely reflexing petals that develop into good double flowers. The color of the buds is a deep coppery-salmon at base, merging to

salmon-pink at the tips. The developed flowers are also salmon-pink, deepening towards the center. Delightfully tea scented. \$2.00 each.

REV. F. PAGE ROBERTS. (Cant & Son.) A Rose of remarkable beauty both in form and color. The long pointed buds are of a coppery-red, stained red on the outside and open to good, full double, fragrant flowers of a golden-yellow, particularly high colored in late summer and fall. The plant is of vigorous, branching habit, with beautiful foliage. A most distinct variety that has deservedly gained

great popularity in the short period since its introduction. \$2.50 each.

New Roses for

\$14.00

Winter Protection

ALL Roses give better results if protected in winter. The best method is to bank the plants with earth as high as possible and cover with stable manure. Remove coarse litter in the early spring and pull earth away from the plants before pruning, cutting out old wood and leaving 3 to 6 of the strongest shoots of last year's growth, cutting these back to within 8 to 12 inches of the ground.

Plant a Few of Our Improved Filberts and Let the Kiddies Enjoy Gathering Nuts Like These at Home

Improved European Filberts

Combine Beauty With Profit. Grow These Handsome European Filberts or Hazelnuts and Enjoy the Yield of Delicious Nuts as Well as the Decorative Embellishment of the Shrubs.

Beautiful shrubs with very ornamental, deep green, leathery foliage, which yield an abundant supply of delicious nuts. They fill an important place in ornamental plantings and are economical food producers as well.

Our Improved Filberts fruit abundantly as far North as Rochester, N. Y., where the temperature has registered five to ten degrees below zero without injury to the plants or to the crop of nuts.

Varieties of Improved Filberts

WHITE LAMBERT

This is one of our most ornamental varieties, a beautiful spreading bush with leaves the largest of any of the Filberts. Nuts of medium size, beautiful in color, and very rich in flavor. A self pollinating variety which should be in every collection.

MINNA ZELLER

A medium sized, beautiful round nut of extra good quality. Ripens very early, about September 1st. A fine grower, somewhat inclined to spread, an excellent pollinizer.

EARLY GLOBE

A very fine oval-shaped nut of medium size, handsome brown in color. Ripens from September 1st to 8th. Nuts are produced in clusters. The most productive of all the Filberts; an excellent pollinizer; should be included in all plantings.

Succeed over a very wide range of territory, thriving anywhere that the native or wild American Hazel will grow (which is practically the entire United States), and because of their hardiness are adapted to the more Northern parts of the country, where other nut trees cannot be successfully fruited.

Almost everyone has some place in yard or garden where they can plant these Filberts effectively. They make excellent screens or hedges, may be grouped by themselves or with other shrubs in the border plantings around the edge of the lawn. And as they succeed in partial shade, they may be planted under large trees or in shady corners.

Flourish in practically any soil and on rough, stony banks, thus bringing into use land which would otherwise be wasted.

Though the plants often fruit in the nursery rows, it will be about four to six years before they will begin to bear in quantities, when a crop of four pounds per bush may be expected.

But it must be borne in mind that this production will steadily increase, that the trees or bushes will last many years, and that they may be planted on soils not suited to other crops.

For garden culture, hedge or ornamental shrub plantings, set 4 to 6 feet apart.

All plants are grown on their own roots and are absolutely true to type. Nuts ripen in September and should not be gathered until thoroughly ripened as indicated by the browning of the husks.

PRICE OF IMPROVED FILBERTS

2 to 2½ feet, \$1.25 each; \$11.50 per 10; \$100.00 per 100.

White Lambert, Minna Zeller, Burkhardt's Zeller and Early Globe we can supply in extra large and heavy specimen plants for immediate effect. 3 to 4 ft., \$2.50 each; \$20.00 per 10.

FILBERTS

Make Excellent Screens or Hedges, and Produce a Beautiful Effect Along Walks or Drives.

ITALIAN RED

One of the finest of the Improved Filberts. Nuts large, of fine brown color, oblong, shell remarkably thin, and kernel of excellent flavor. A fine upright grower, and a prolific bearer.

BURKHARDT'S ZELLER

A medium sized, round nut of delicious quality. Kernels large, completely filling the shells. Very heavy bearer, strong, upright grower; one of our best pollinating sorts.

RED LAMBERT

A large, conical-shaped nut of extra good quality. Ripens somewhat late, about the last of September. Bushy and spreading in growth; very hardy.

A FEW WORDS OF PRAISE WE HAVE RECEIVED FOR OUR IMPROVED FILBERTS

Grand Rapids, Mich., August, 1926.

Filberts doing very good. This is the third year they have borne fruit and this year the fruit is larger than before.

F. KAMINSKI.

Marietta, O., August, 1926.

Filberts flourishing. Three years ago bore their first crop and will have a fair crop this year. They are as large as represented, and the different varieties are interesting.

R. T. CISLER.

Cumberland, Md., August 23, 1926.

Filberts bore their first crop in 1923 and have increased each year. This year are covered with nuts. Have a small basket of nuts I kept from last year to show people, who are always much surprised that Filberts of this quality can be grown in this region. It is a pity that more people do not have them.

H. B. HUMMELSHIME.

Upper Marlboro, Md., August 9, 1926.

Filberts in splendid shape and we are going to have a large yield this year.

C. A. M. WELLS.

Delaware City, Del., December 10, 1924.

Our trees bear plenty of nuts every year and they are satisfactory.

H. C. CLARK.

Larchmont, N. Y., August 2, 1927.

I have a great many nuts this year. Some of my bushes are 15 feet high.

E. C. BINGHAM.

Louisville, Ky., September 13, 1926.

Filberts doing beautifully. Almost from the start they have borne a few nuts each year, and this year I obtained approximately a pound of very excellent nuts.

DR. E. F. HORINE.

Allenhurst, N. J., August 9, 1926.

Improved Filberts doing very nicely in growth and in fruit.

DR. A. A. BRILL.

Knoxville, Tenn., August 13, 1926.

These Filberts have grown to be right large bushes and last year they had several quarts on them, though the season was very dry and unproductive. They look to have quite a few nuts on them this year.

SPEARS WEBSTER.

Westhampton Beach, N. Y., July 30, 1926.

Filberts have done well, crops generous and even.

ED. R. FINCH.

Dowagiac, Mich., July 30, 1926.

Filberts all lived and doing fine. Most of them bore nuts last year and I am going to have quite a crop this year.

A. E. RUDOLPHI.

Improved Filbert Plants as We Take Them Up in the Nursery
to Fill Your Order

ENGLISH WALNUTS

Why not get a few nut-bearing trees this spring? As handsome for lawn as any purely ornamental trees, and yield large crops of delicious nuts.

Budded or Grafted English Walnuts

Succeed Where Seedling Trees Fail. Budded or grafted on Hardy Black Walnut Stock. More vigorous, hardy in all sections, bear earlier, produce nuts in 3 to 4 years that equal the best imported sorts in size and quality. Recommended by the American and Northern Nut Growers' Associations, and the U. S. Department of Agriculture as the **only dependable English Walnuts** to plant. We offer two of the best varieties, the **Vrooman Franquette** and **Wiltz Mayette**.

VROOMAN FRANQUETTE. Large, oblong; rich, exquisite flavor; a favorite for dessert. A popular variety, highly recommended and extensively planted. Tree robust, bears abundantly and regularly. The peer of all the French varieties. 3 to 4 ft., \$3.00 each.

WILTZ MAYETTE. Considered one of the finest that reaches New York markets, where it always brings highest prices. Large, smooth, fine appearance; flesh oily, rich, sweet and very good. Tree strong, vigorous and handsome. 3 to 4 ft., \$3.00 each.

Budded or Grafted Pecans

Best Budded or Grafted Northern Varieties, 3 to 4 ft., \$3.00 each.

INDIANA. Originated in Knox County, Indiana. One of the largest and best of the Northern sorts. Nut thin-shelled, full-meated, of very good quality. A very heavy bearer.

BUSSERON. Originated in Knox County, Indiana. One of the most reliable sorts. Strong grower, early and prolific bearer. Nut large, long, moderately thin-shelled, quality of the best.

BUTTERICK. Originated near Grayville, Illinois. A rapid grower, bears very early. One of the largest, and a real paper-shell of excellent quality, with full kernel.

POSEY. Originated in Gibson County, Indiana. One of the largest and finest, a real paper-shell, splendid cracker, quality among the best. Tree very stocky in growth, foliage large and luxuriant, very ornamental.

BUTTERICK PECAN

Budded or Grafted Black Walnuts

THOMAS. Originated in Pennsylvania. One of the finest and best of all large nuts in cracking qualities. Nut very large with large kernel of very good quality. Tree a wonderful grower. 3 to 4 ft., \$3.00 each.

Seedling Nut Trees

BLACK WALNUT. Most valuable for timber; rapid grower; bears large, round nut of excellent quality. 5 to 6 ft., \$1.50 each.

ENGLISH WALNUT. Seedling trees, grown from selected nuts. Exceedingly handsome for lawn. Produce large crops of nuts, but apt to vary in size and quality. 3 to 4 ft., \$1.50 each.

JAPAN WALNUT (Sieboldi). Perfectly hardy, rapid grower; one of the finest ornamental trees. Nuts resemble Butternuts, but somewhat smaller, with thinner, smoother shell. Worthy of extensive planting. 3 to 4 ft., \$1.50 each.

BUTTERNUT. Valuable for timber; bears an oblong, thick-shelled nut of delicious flavor. 5 to 6 ft., \$1.50 each.

THE HALL MARK NURSERIES

Best Hardy Hybrid Perpetual or June Roses

Are among the most valuable of all hardy plants. Vigorous, upright in growth, with large, bold flowers that are deliciously fragrant. Succeed in any locality, and are so hardy they will live through the severest winters with but a slight protection of leaves or coarse manure.

Price, 75c each, except noted; \$7.00 for the collection of 12.

ANNA DE DIESBACH. Lovely carmine-pink. Extra large, full blooms.

FRAU KARL DRUSCHKI (White American Beauty). The ideal pure white Rose.

GENERAL JACQUEMINOT. Brilliant scarlet-crimson. An old favorite.

GEORGE AHREND'S (Pink Druschki). Delicate pink, wonderfully beautiful.

HARISON'S YELLOW. The cheery yellow of the old-time garden. Extremely fragrant, profuse in bloom. \$1.00 each.

J. B. CLARK. Intense deep scarlet. Immense size. Gloriously beautiful.

MARSHALL P. WILDER. Deep, rich, glowing red. Intensely fragrant.

MRS. JOHN LAING. Soft pink, beautiful form; fragrant. Very free bloomer.

MRS. R. G. S. CRAWFORD. Clear, rosy pink, outer petals shading to pale flesh. Full and perfectly formed; a grand Rose. Free and continuous bloomer.

PAUL NEYRON. Largest size, bright, clear, shining pink. Always does well.

PRINCE CAMILLE DE ROHAN. Deep velvety crimson, shaded black.

ULRICH BRUNNER. Bright cherry-red, large and full. One of the best.

Magnificent Hardy Climbing Roses

Our collection includes splendid new sorts of unusual beauty and merit that you will surely want to include in your planting. Climbing Roses can be put to so many good uses that it seems as if every household should have at least a few. They are perfectly hardy, requiring comparatively little care after once planted, and they bear great quantities of lovely flowers.

AMERICAN PILLAR. Single-flowered variety of great beauty. One of the most gorgeous climbers, also makes a magnificent hedge, prized for its hardiness, strong, rapid growth, healthy foliage and truly wonderful wealth of delicately fragrant bloom. Flowers large, rich rosy pink with white eye; borne in immense clusters. 60c each.

AVIATEUR BLERIOT. A magnificent variety. Rich, deep, copper color. Beautiful buds, opening into medium sized, full, fragrant flowers. Large clusters of bloom, borne in great profusion. 75c each.

Three Wonderful New Climbing Roses

EMILY GRAY. Beautiful yellow. Long, pointed buds. \$1.00 each.

CLIMBING GRUSS AN TEPLITZ. The hardiest of the ever-blooming climbing Hybrid Teas, exceptionally satisfactory. Produces a profusion of fine, dark crimson blooms like the bush variety of the same name. \$1.00 each.

MARY WALLACE. New semi-double, rose pink, salmon at base of petals. \$1.00 each.

Or one each of the above varieties, strong, 2-year No. 1, field-grown plants, for \$2.50.

MRS. JOHN LAING

A Really Grand Rose, Exquisitely Shaded.

BESS LOVETT. Resembles Climbing American Beauty, in shape of flower, but is brighter in color, a clear bright red, of good size and of double full-cupped form, lasting a long time in good condition; a strong, vigorous grower and very fragrant. 75c each.

CLIMBING AMERICAN BEAUTY. Rosy crimson. Same exquisite fragrance as old American Beauty. Flowers large, produced profusely. 75c each.

CLIMBING LOS ANGELES. A counterpart of that most popular bedding Rose, Los Angeles, but of strong, climbing habit. \$1.50 each.

CRIMSON RAMBLER. Immense clusters of rich, glowing crimson flowers, that remain for more than two weeks. 50c each.

DOROTHY PERKINS WHITE. Best white Rambler. 50c each.

DOROTHY PERKINS PINK. The only fragrant Rambler. Shell-pink, very double. 50c each.

DOROTHY PERKINS RED (Excelsa). Finest of all crimson Ramblers. Great quantities of full, double flowers. Hardy everywhere. 50c each.

HIAWATHA. A most brilliant colored single Rose. Intense deep crimson with base of petals shading to pure white, a glowing combination of color that must be seen to be appreciated. Flowers about 1½ inches across, produced in long, pendulous sprays. Useful for mass planting as well as for a climbing or trailing Rose. 60c each.

TAUSENDSCHOEN (Thousand Beauties). Covered with bright blossoms of every shade from white to deep pink, borne in clusters, quite double. 60c each.

WICHURAIANA or **MEMORIAL ROSE.** A handsome trailing variety, forming a dense mat of almost evergreen, glossy foliage. Excellent for cemetery planting, and for covering banks or rockeries. Pretty clusters of fragrant, single white flowers followed by bright red berries in the fall. Hardy everywhere. 75c each.

Four Magnificent Climbing Roses for \$2.00

DR. W. VAN FLEET. Flesh pink. 60c each.

GARDENIA (Hardy Marechal Niel). Golden yellow. 60c each.

SILVER MOON. Grand new white climbing Rose. 60c each.

PAUL'S SCARLET CLIMBER. Gorgeous new climbing Rose, Most brilliant of its class. \$1.00 each.

The above collection of four, fine, 2-year No. 1, field-grown plants, for \$2.00.

ROSA HUGONIS. Unlike any other rose, shrub-like in growth, reaching a height of about 6 feet. One of the earliest to bloom, its long arching branches are thickly set with lovely, delicate, single yellow flowers in May, making a most spectacular show. Not suited to the rose garden, but invaluable in the shrub border or as a specimen in the garden. Never winterkills. \$1.00 each.

PAUL'S SCARLET

Brightest and Purest Red Climbing or Pillar Rose. Makes a Brilliant Display for a Long Time

CRIMSON BABY RAMBLER ROSE
Indispensable for edging, massing, and mingling with other flowers. Never out of bloom during the entire season.

Rugosa and Hybrid Rugosa Roses

These hardy Roses can be used in so many places that they are almost indispensable. Sturdy, shrubby bushes, adapted for hedges and hardy borders, or to mix in other shrubbery. Foliage very ornamental, dark, shiny, rich green.

BLANC DE COUBERT. A splendid double, pure white. 75c each.

CONRAD F. MEYER. Flowers very large and well filled. Clear, silvery rose. Very fragrant. 75c each.

ROSA RUGOSA RUBRA. Crimson flowers are large and single, followed by glossy red berries. 60c each.

ROSA RUGOSA ALBA. Single white flowers, followed by yellow berries. 75c each.

ROSERAIE DE L'HAY. New Hybrid Rugosa of which we cannot speak too highly. Good grower, flowers very double, color carmine-cherry-red. Free bloomer, exquisitely scented. 75c each.

SIR THOMAS LIPTON. Best double white in this class. Fragrant and blooms at intervals all summer. 75c each.

New Everblooming Red Rugosa Rose, F. J. Grootendorst

The most beautiful of the Rugosa Roses. Foliage of the true Rugosa Type, always healthy, clean and attractive, free from mildew. Plants of vigorous but compact growth, ultimately reaching 4 to 5 feet in height. Flowers in clusters, double, with edges beautifully fringed, so that each cluster of bloom resembles a bunch of red carnations. Blooms continuously from early summer until fall. Extremely hardy, thrives everywhere.

Very effective as single specimens, or in foundation plantings to give color contrast throughout the season, and especially valuable for landscape work for mass and hedge planting.

Extra strong, 2-year field grown plants, 75c each; \$7.00 per 10; \$60.00 per 100.

Atlanta, Ga., Nov. 23, 1927.

Everything that you have sent me this season appears to be unusual quality and value. I shall take care to give you some favorable mention in my neighborhood. Thanks.

G. C. BOWDEN.

Trenton, N. J., Aug. 23, 1927.

We have had very splendid success with everything purchased from you in the way of flowers, plants and trees. Roses secured from you and planted in 1925 have grown to be the finest rose bushes at Wildwood, N. J., where there are hundreds of homes with fine roses.

W. M. LONG.

Chicago, Ill., March 7, 1927.

The Silver Moon Rose Bush had over 300 blossoms last year and was wonderful.

A. J. BRINKMAN.

Dwarf Polyantha Roses

Very popular for bedding purposes and for edging borders of shrubs, roses or perennials they have no equal. Splendid, hardy, showy and compact, bushy specimens about 18 inches high, producing immense trusses of small flowers in great profusion. Keep their color well and continue in full bloom all summer and until late fall.

Price, 85c each; \$8.00 per 10 (Except Noted)

BABY RAMBLER. The original dwarf form of Crimson Rambler. Large, well formed flowers of brilliant crimson, borne in clusters. Wonderfully persistent in bloom.

BABY DOROTHY (Pink Baby Rambler). A delightful flower. Blooms in masses, in the greatest profusion, like the Climbing Dorothy Perkins.

GEO. ELGER. A lovely variety, producing double, golden yellow flowers, each bush so loaded with bloom that it resembles a hugh bouquet. \$1.00 each.

GRUSS AN AACHEN. An unusual and distinctive Rose; very large, fully double, with broad petals of notable substance; beautiful in bud and open flower. A charming mixture of pink shades overlaid with yellow. \$1.00 each.

KATHARINA ZEIMET (White Baby Rambler). Fragrant, double flowers of creamy white, in large clusters. Each branch bears from 15 to 20 blooms, producing decorative masses, exquisite in every way.

MME. CECILE BRUNNER (Sweetheart or Mignon Rose). An exquisite miniature variety of perfect Rose form, producing its tiny blossoms in many flowered, graceful sprays. Rich, rosy pink baby buds, opening into lovely double flowers of soft, seashell-pink, intensely fragrant. Much in demand for bouquets, corsage work and dainty decorations. \$1.00 each.

CHATILLON. A new Rose bound to become one of the most popular. A distinct novelty, its color a charming silvery crimson, passing gradually to white center. Graceful in habit, free and persistent in bloom. Produced in great sprays, wonderfully beautiful, very lasting as cut-flowers. \$1.00 each.

Tree or Standard Roses

Price, \$3.00 each.

Novel and beautiful plants. Budded on single, upright stems of hardy Rugosa stock 4 to 5 feet high, which reveals all the foliage and all the bloom in a rounded clump at the top. Unique effects are produced by planting in groups or as border lines by garden walks. Indispensable in Rose and flower gardens to relieve the flat appearance and give the flowers individuality.

We offer the following varieties: for description of bloom see same varieties under Roses:

Pink Dorothy Perkins
Dr. W. Van Fleet
Excelsa
Paul's Scarlet Climber

Gruss an Teplitz
Geo. Ahrends
Ophelia

Madam Butterfly
Red Radiance
Mrs. Calvin Coolidge

F. J. GROOTENDORST
Best Sort for Everblooming Perfectly Hardy Rose Hedge

Evergreens

Use Evergreens to decorate and dignify your path and drive entrances. Large estates such as this need heavy plantings, but smaller homes need only a pair or group of half a dozen to give a most pleasing effect.

Planting season for spring from April 10 to May 15, for fall from about August 15 to October 10, depending on season and locality.

All Evergreen Trees will be carefully dug with ball of earth about the roots and tightly sewed in burlap and will stand transportation and transplanting with little risk of loss.

PLANTING SUGGESTIONS. Dig hole a foot larger and deeper than the ball of earth. Provide good loamy top soil to fill in. Set tree in hole a trifle lower than it stood in the nursery. Fill good soil around the ball, pack firmly or settle by filling hole with water. Loosen burlap at top of ball and roll back or cut off the top portion. Fill in hole, packing firmly, and cover top of ground with loose earth or mulch with straw or hay. Water copiously during any drought, especially the first year.

Abies - The Fir

Trees are generally pyramidal in shape and hardy everywhere. The needles are short and generally bright on the under side.

BALSAM FIR. Foliage is dark green above, silvery beneath. Rapid grower. It has always been popular on account of its "Balsam odor." The characteristic odor of the Northern woods is chiefly due to this fir. The young growths are often used for making the favorite "Balsam Pillows." Does very well in damp places. 18 to 24 in., \$3.50 each; 2 to 2½ ft., \$4.50 each.

CONCOLOR (White Fir). One of the most beautiful firs in cultivation. Foliage, light blue-green. An excellent specimen, entirely hardy, and universally successful in the cooler latitudes. 18 to 24 in., \$4.50 each; 2 to 2½ ft., \$6.00 each.

NORDMANN'S FIR. Thrives under city conditions. Its wide needles, lustrous dark green above, with silvery under-surface, and its dense habit of growth produce a particularly rich effect. A magnificent specimen Fir for the Middle States. 18 to 24 in., \$5.00 each; 2 to 2½ ft., \$7.50 each.

Juniper - Juniperus

Beautiful evergreen trees and shrubs. The columnar forms are well used as specimen plants, while the spreading type is used as a ground cover and in front of taller plants.

IRISH. A distinct and beautiful variety, forming a neat tapering column of deep green. Much used in cemetery plantings. 18 to 24 in., \$2.00 each; 2 to 2½ ft., \$3.00 each.

SAVIN. A vase-shaped, somewhat upright plant with deep green foliage. Valued for rockeries, groups and borders in combination with other low-growing Evergreens. 15- to 18-in. spread, \$2.50 each; 18- to 24-in. spread, \$4.00 each.

PROSTRATA. Dull green leaves. Grows rapidly and makes a very pleasing effect when planted on terraces; also used for covering rocks and bare, sunny positions. 15- to 18-in. spread, \$2.00 each; 18 to 24-in. spread, \$3.00 each.

PFITZER'S JUNIPER (J. Pfitzeriana). Of the spreading type, this is perhaps the most popular. Foliage a grayish green, slightly drooping and branches are horizontally spreading. 1½- to 2-ft. spread, \$3.50 each; 2- to 2½-ft. spread, \$5.00 each.

VIRGINIANA (Red Cedar). A tall-growing native tree of great beauty. Tapering form, bright, rich green foliage. 2 ft., \$4.00 each; 3 ft., \$6.00 each.

VIRGINIANA GLAUCA (Blue Cedar). Probably the best variety of Cedar; a favorite for specimen work. Vigorous grower, compact and conical, beautiful, silvery blue foliage. 2 ft., \$6.00 each; 3 ft., \$8.00 each.

TAMARISCIFOLIA. Excellent dwarf creeping variety with delicate bluish-green foliage. Valuable for rock-work and edging borders. 15 to 18 in., \$3.50 each.

Picea - The Spruces

ALBA (White Spruce). Dense, compact, tall-growing tree with light, bluish green needles. This is an excellent tree for the colder parts of the country. 18 to 24 in., \$3.00 each; 2 to 2½ ft., \$4.00 each.

EXCELSA (Norway Spruce). The most generally used of evergreen trees. Extremely hardy, of lofty, rapid growth and pyramidal form. One of the best for hedges and windbreaks. 18 to 24 in., \$1.50 each; 2 to 2½ ft., \$2.00 each; 3 to 3½ ft., \$4.00 each.

PUNGENS GLAUCA (Colorado Blue Spruce). Hardy and beautiful, of pyramidal form, foliage rich blue or sage color. 18 to 24 in., \$8.00 each; 2 to 2½ ft., \$10.00 each.

KOSTERIANA (Koster Blue Spruce). The bluest of all the Spruces. Like Colorado Blue Spruce, but more distinctive in its rich, characteristic coloring. Easily the most beautiful of all evergreens. Naturally conspicuous, it is ideal where standing alone—either as a specimen or in sentinel rows. Always satisfying in shape, it is also a rapid grower, with close branches and lustrous silvery-blue foliage. 15 to 18 in., \$12.00 each; 18 to 24 in., \$15.00 each.

PSEUDOTSUGA (Douglas Spruce). One of the most desirable of evergreens, considered from every standpoint. When small, it is beautiful in shape and texture, and when it attains large proportions, it is majestic. Leaves dark bluish green; rapid grower and healthy; worthy of a place on every estate. 2 to 2½ ft., \$5.00 each.

Orleans, Mass., March 15, 1927.

In the Ten years I have had goods from you, I have had only the finest of "Stock" and the best of service and courtesy.

G. E. T. WARD.

Willoughby, Ohio, March 12, 1927.

We have been getting our nursery stock from you now for a number of years, and desire to express our appreciation of the quality and service you have unvaryingly given us. Our garden and orchard are constant reminders of the live, sturdy stock you have sent us.

SMITH & WAGNER, Architects.

IRISH JUNIPER
A very narrow, pyramidal tree,
useful for its spire-like
effect.

Pinus-The Pines

AUSTRIAN PINE. Tall, massive, with spreading limbs and long, stiff needles. Thrives along the coast, inland, and under city conditions. Handsome for specimen or open group planting. 18 to 24 in., \$3.00 each; 2 to 2½ ft., \$4.50 each.

SCOTCH PINE. A rapid grower, for planting where quick results are wanted. Thrives near the seashore and in other exposed locations. Good for mass plantings, screens and wind-breaks. 18 to 24 in., \$2.50 each; 2 to 2½ ft., \$3.50 each.

MUGHO PINE. A low, mound-like hardy type. The erect new growth resembles candles, making a striking contrast to the dark green of the older foliage. For rock gardens, group and foundation plantings. 12- to 15-in. spread, \$3.50 each; 15- to 18-in. spread, \$5.00 each.

Retinispora - Japanese Cypress

This group contains many interesting plants. In foliage, grace, beauty and adaptability they are truly attractive. They develop into small trees, never growing as large as Pines or Spruces. The foliage is most attractive, especially when sheared, as then it develops its true color with its lacy and graceful habit, which makes it, whether in specimen or group planting, a much sought for plant.

GOLDEN PLUMED CYPRESS (R. Plumosa Aurea). Soft, plume-like, golden foliage, particularly bright in spring and contrasting beautifully with green grass and other Evergreens. 18 to 24 in., \$4.00 each; 2 to 2½ ft., \$5.00 each.

GOLDEN THREAD-BRANCHED RETINISPORA (Filifera Aurea). Showy, golden foliage possessing the same thread-like, pendulous effect as the parent type, though a more dwarf grower. 18 to 24-in. spread, \$6.00 each.

GOLDEN PEA-FRUITED RETINISPORA (Var. Aurea). Light, airy, golden foliage that blends well in mixed plantings. 18 to 24 in., \$4.00 each; 2 to 2½ ft., \$5.00 each.

PEA-FRUITED RETINISPORA (Retinispora Pisifera). A splendid bushy variety with pyramidal outline, slender, graceful branches and light green leaves. 18 to 24 in., \$3.00 each; 2 to 2½ ft., \$5.00 each.

PLUMED CYPRESS (R. Plumosa). This is one of the best pyramidal varieties. Foliage a grayish green, very finely cut and has a feathery appearance. Should be sheared during June or July. 18 to 24 in., \$3.00; 2 to 2½ ft., \$4.00 each.

SILVER CYPRESS (R. Squarrosa). Soft, feathery foliage, silvery or steel gray in color. 18 to 24 in., \$4.00 each; 2 to 2½ ft., \$5.00 each.

SULPHUREA. A most beautiful variety. Round, bushy head covered with small sulphur-yellow leaves, keeps its bright color throughout the year. 18 to 24 in., \$4.00.

THREAD-BRANCHED RETINISPORA (Filifera). Broad and bushy, with pendulous, dark green foliage of a thread-like nature. A distinctive, valuable tree. 18 to 24 in., \$4.00 each.

The way Hall Evergreens are dug and wrapped for packing, with soil protecting the roots.

A Tip on Hydrangeas

For years we have done a great deal of business with large estates and institutions. Last summer when I was making my usual calls I was impressed with the remarkable size and showing of the Hydrangeas in Sleepy Hollow Cemetery. When I asked the Superintendent what they did to get such results he said simply cut them back almost to the ground every spring. That might be a good tip for YOU if you have Hydrangeas, and if you haven't you certainly should have.

L. W. Hall Jr.

Hall's Special Offer for

1928

These Six Graceful Evergreens

for

\$10.00

A delightful cluster of evergreen beauty to ornament your door-step, walk entrance, or to plant on the lawn. Specially selected for hardiness, beauty of foliage, symmetrical growth and to form a pleasing contrast in form and color.

- 1 Norway Spruce, 2-3 ft.
- 1 Retinispora Pisifera, 18-24 in.
- 2 Arbor Vitae, American, 2-3 ft.
- 1 Arbor Vitae, Globosa, 15 in.
- 1 Arbor Vitae, Hoveyii, 15 in.

Six Fine, Sturdy Trees, well rooted, shipped with ball of earth, carefully packed, F. O. B. Freight or Express, Rochester, N. Y.

Get your order in early for this collection. It is one of the greatest values we have ever offered.

HALL'S SPECIAL EVERGREEN OFFER, } **\$10.00**
SIX BEAUTIFUL SPECIMENS, FOR }

THE HALL MARK NURSERIES

Thuya - Arbor Vitae

This group contains the more popular forms of lower growing evergreens. The pyramidal or globe shapes are popular for foundations, groups, hedges, cemeteries, vases, window boxes; in fact, for every purpose an evergreen is wanted. They do well wherever planted, and the flat or "pressed" foliage is most attractive. Should be sheared occasionally so as to develop new growth to cover the inside branches.

OCCIDENTALIS (American Arbor Vitae). Very largely used; and perfectly hardy. A low-branched, bushy pyramid, foliage bright green above, yellowish beneath. Useful for screens and hedges. 18 to 24 in., \$2.00 each; 2 to 2½ ft., \$3.00 each; 3 to 3½ ft., \$5.00 each.

GLOBOSA. Light green foliage of a grayish cast. The neat globular outline adapts this Arbor Vitae for formal plantings, tub and window box use, as well as in the foreground of Evergreen groups. 12 to 15 in., \$2.00 each; 15 to 18 in., \$3.00 each.

GEO. PEABODY'S GOLDEN. Dwarf, dense-growing variety, holding its golden yellow color all summer. 18 to 24 in., \$3.00 each; 2 to 2½ ft., \$4.00 each.

HOVEYI. Dwarf, globe-shaped, with golden green foliage; fine for toning up somber greens. 15 to 18 in., \$3.00 each; 18 to 24 in., \$4.00 each.

PYRAMIDAL. Similar to the well-known American Arbor Vitae, but somewhat more dense and columnar in habit and retains its dark, lustrous green color better through the winter. 18 to 24 in., \$3.00 each; 2 to 2½ ft., \$4.00 each.

SIBIRICA (Siberian Arbor Vitae). Large, dark green foliage, strong, pyramidal growth, very good and hardy. 18 to 24 in., \$2.50 each; 2 to 2½ ft., \$4.00 each.

TOM THUMB. Very dwarf and slow in growth, of compact and symmetrical habit. Feathery foliage; fine for low hedges, foundations, etc. 15 to 18 in., \$2.50 each.

The Yews - Taxus

The refinement and distinction which this family of Evergreens possesses are hardly equaled by any other family. They are invaluable for formal effects, as they withstand shearing well, and lend themselves quite as readily to specimen, group, or bed planting. Relatively slow-growing, with foliage of a deep, lustrous green, and the beauty is further enhanced during the autumn and winter by clusters of brilliant, red berries.

CUSPIDATA (Japanese Yew). One of the hardiest of Yews. Bushy, upright-spreading nature, with rich green foliage. A beautiful medium sized specimen, equally well suited for foundation and bed planting. An occasional shearing will keep them uniform and symmetrical. 18- to 24-in. spread, \$6.00 each; 2- to 2½-ft. spread, \$8.00 each.

NANA. BREVIFOLIA (Dwarf Japanese Yew). Irregular, unique outline (readily made symmetrical by shearing if desired) with deep green foliage. Justly popular for places where a low, spreading plant is wanted. 12- to 15-in. spread, \$4.00 each; 15- to 18-in. spread, \$6.00 each.

Tsuga - Hemlock

CANADENSIS (Canadian Hemlock). A tall-growing, graceful tree with spreading and drooping branches which form a pyramidal crown. Foliage dark green and glossy. Thrives in a more shady situation than most Evergreens. An ideal subject for woodland planting, either in groups or scattered. As a hedge, it is a thing of beauty. 18 to 24 in., \$3.50; 2 to 2½ ft., \$5.00 each.

IT SOMETIMES PAYS TO USE A LITTLE COMMON SENSE IN PLANTING.

Here is a good one from a large summer estate at Sewickley, Pa. It seems the family never come out until July. But when the estate was landscaped, someone put a bank of Azaleas in a prominent place near the house. As Azaleas bloom in June, the owners and their guests never had the benefit of them. The result from our suggestion of replacing with a bank of Everblooming Rugosa Roses has proved a constant delight. Plan Before You Plant is a wise motto. Tell us the effect you want and when you want it, and perhaps we can help.

L. W. HALL.

KOSTER'S BLUE SPRUCE

The bluest of all Evergreens, its silvery sheen making it conspicuous in any planting. An ideal specimen tree for the lawn.

JUNIPER PFIZERIANA

Wonderful in connection with taller sorts in the foundation planting, or as background for open spaces.

ARBOR VITAE GLOBOSA

Naturally globe-shaped, useful in formal work.

SCOTCH PINE

A picturesque, quick-growing tree, excellent for screen or shelter

MUGHO PINE

Absolutely unique, the smallest of the Dwarf Pines.

RETINISPORA PLUMOSA

A graceful specimen for foundation planting.

Flowering Ornamental Trees

These are trees that attain only moderate size, or shrubs grown in tree form, on single stems, and all having beautiful and conspicuous flowers. None are shade trees. The Thorns grow to rather large size.

Flowering Cherries

No garden is complete without these beautiful trees, which are a mass of delicate bloom early in the spring. The large, double flowers resemble miniature roses and cling closely to the branches, completely concealing them, so that the trees seem to be buried beneath their wealth of exquisite color and fragrance. They make unique and handsome specimens on the lawn and should be extensively planted. The drooping varieties are especially adapted to beautify small grounds.

KOFUGEN. A very vigorous, upright growing variety. Crimson buds, flowers red, fading to old rose. A most unusual color in Flowering Cherries, very rare and desirable. 3 to 4 ft., \$2.50 each.

NADEN. Double, blush pink, a late-flowering variety, very striking, one of the most popular. 3 to 4 ft., \$2.50 each.

SHIROFUGEN. Snow white, large, double flowers. Extra choice. 3 to 4 ft., \$2.50 each.

KANSAN. A splendid sort, large, drooping, heavy flowers, very double, rose colored. Late blooming, spreading, bushy growth. 3 to 4 ft., \$2.50 each.

This Collection of Beautiful Flowering Cherries, 4 Trees, for \$8.00.

JAPONICA ROSEA PLENA (Weeping Rose-flowered). One of the finest weeping trees in cultivation. Slender branches, falling gracefully to the ground; flowers rose colored, appearing before the leaves. \$5.00 each. (See illustration on Back Cover.)

The Dogwoods

The Dogwoods are among the most popular and decorative small trees for lawn planting and have many desirable qualities which particularly recommend them for such purposes. Flowers early in the spring are followed by attractive red berries in great quantities which hang on the trees a long time and add largely to their beauty.

FLORIDA (White Flowering Dogwood). American variety of irregular habit, with spreading, open top. The flowers are white, produced in May, followed by scarlet berries and gorgeous autumnal colorings of the leaves. 2 to 3 ft., \$1.50 each; 3 to 4 ft., \$2.00 each.

FLORIDA RUBRA (Red Flowering Dogwood). This merits all of the favor which has been shown it by the public. The flowers are like Cornus florida, except that they are a deep rose color, freely produced. A fit companion to the white form. 2 to 3 ft., \$3.50 each.

Cercis-Judas Tree; Red Bud

Very ornamental native tree of medium size. It is a harbinger of spring, blooming in April, literally covered with its red or pink blossoms before the leaves open. Useful in massed shrub plantings, with White Flowering Dogwood, also makes pleasant contrast planted against evergreens or White Birch. 2 to 3 ft., \$1.00 each.

CRAB, BETCHEL'S

Beautiful Flowering Tree Adapted to Individual Planting or Grouped With Others

The Flowering Crabs

Have few rivals among gorgeous spring flowering trees or shrubs. Mr. John Dunbar of Rochester's Park System says, "They are the most wonderful of all flowering trees for American gardens." Easy of culture, adapted to individual plantings on small lawns, or can be beautifully grouped in larger areas and will give remarkable and quick results.

ATROSANGUINEA. Brilliant carmine flowers, produced in greatest profusion. A charming variety.

BECHTEL'S. Large, double rosy pink flowers; very beautiful.

FLORIBUNDA. One of the handsomest and most satisfactory of all flowering trees. Blooms every year without fail. Rose-red flowers in great profusion in May.

NEIDZWETZKYANA. Showy, deep pink flowers; purplish fruit. Very fine and ornamental. Wood and leaves are red.

SCHEIDECKERI. A double-flowering variety with light rose flowers in greatest profusion. Should be in every collection.

SPECTABILIS ROSEA. Large, fragrant, pink, semi-double flowers. One of the best.

SARGENTI. Very dwarf, spreading Japanese variety. Pure white flowers with bright yellow anthers. Scarlet fruit hanging until spring. 2 to 3 ft., \$1.50 each.

Price, extra fine, selected trees, 3 to 4 ft., \$1.50 each. Collection of any four, for \$5.00.

Flowering Peach

Superb flowering trees with showy and beautiful bloom. In May every branch is covered with a mass of beautifully formed, double flowers, producing a charming effect. Perfectly hardy.

DOUBLE WHITE. Very ornamental. Flowers pure white. 3 to 4 ft., \$1.00 each.

DOUBLE PINK. Double, pale rose colored; like small roses. Very pretty. 3 to 4 ft., \$1.00 each.

Flowering Plum

PURPLE-LEAF. Perfectly hardy. Leaves rich purple, retaining their bright color through the entire season. Profusion of white blossoms in May, followed by small purplish red, edible fruit. 3 to 4 ft., \$1.00 each.

DOUBLE-FLOWERED. Native of China. Flowers double, of a delicate pink, upwards of an inch in diameter, thickly set on the long, slender branches; flowers in May. 2 to 3 ft., \$1.00 each.

The Thorns

Justly classed among the most beautiful flowering trees. Flower abundantly in May and June, and are fragrant and showy. Also particularly interesting in autumn on account of their showy fruit.

DOUBLE PINK. A tree with rich, luxuriant foliage. Flowers large, beautiful. A charming variety. 5 to 6 ft., \$2.50 each.

DOUBLE WHITE. A profuse bloomer, a choice sort for lawn decoration. 5 to 6 ft., \$2.50 each.

PAUL'S SCARLET. Highly ornamental foliage and flowers. Double, bright carmine-red blossoms. Superior to any other variety of its color. 5 to 6 ft., \$2.50 each.

This Collection of Three Thorns for \$6.00.

THORN, PAUL'S SCARLET
The Brilliant Intensity of Its Color Distinguishes This Tree From All Others

Trees for Shade and Ornament

CATALPA BUNGEI

Recommended for Small Lawns, Formal Gardens, Etc.

There is an untiring loveliness in trees. Even in the bleak, cold days of winter there is beauty in bark and form. Shade trees on the lawn provide an ideal restful spot in which to spend leisure moments, and in addition to these are the flowering trees which shower the lawn with their bloom. To deny yourself the beauty of these is to miss one of the greatest pleasures a home can give.

BIRCH, CUT-LEAF WEEPING

A Most Charming Specimen for the Lawn

BIRCH, CUT-LEAVED WEEPING. One of the most elegant of all weeping trees. Its tall, slender, yet vigorous growth, graceful, drooping habit, silvery white bark and delicately cut foliage present a combination of attractive characteristics rarely met in a single tree. 6 to 8 ft., \$4.00 each.

CATALPA BUNGEI (Umbrella Catalpa). Grafted on stems 6 to 7 feet high, it make an umbrella-shaped top without pruning. Perfectly hardy. Leaves large, glossy, heart-shaped, deep green; lie like shingles on a roof; always makes a symmetrical head. \$2.00 each.

CATALPA SPECIOSA. One of the most beautiful lawn or street trees, producing magnificent flowers in the early spring; very rapid growing. 8 to 10 ft., \$1.50 each.

ELM, AMERICAN WHITE. Noble, spreading, drooping tree. One of the grandest park and street trees. 8 to 10 ft., \$2.50; 10 to 12 ft., \$3.50 each.

ELM, CAMPERDOWN. One of the best weeping trees. Large, glossy, dark green leaves overlapping to form compact, roof-like head. \$5.00 each.

LARCH, EUROPEAN. One of our most attractive lawn trees. Strikingly beautiful in early summer when covered with its new, soft, feathery, light green foliage. Pyramidal form, rapid in growth, bears cones like an evergreen. 2 to 3 ft., \$2.50 each.

LINDEN, AMERICAN (Basswood). Rapid growing; large, fragrant flowers. 7 to 8 ft., \$3.00 each.

MAPLE, NORWAY (Hard Maple). Most popular shade tree in America. Large, handsome tree of fairly rapid growth, with symmetrical round head, broad, shining foliage of deep rich green. 6 to 8 ft., \$3.00; 8 to 10 ft., \$4.00; 10 to 12 ft., \$5.00 each.

MAPLE, RED OR SCARLET. Medium sized tree with rounded head. Young shoots bright red in winter. Deep red blossoms appearing before the leaves. In the autumn foliage changes to magnificent brilliant scarlet. 6 to 8 ft., \$3.50 each.

MAPLE, SILVER OR SOFT MAPLE. Fast growing, succeeds everywhere; in big demand where immediate shade is required. 8 to 10 ft., \$1.75; 10 to 12 ft., \$2.25 each.

MAPLE, SUGAR OR ROCK. Excellent shade tree of large size. Desirable for street, park or lawn. 8 to 10 ft., \$3.00 each.

MAPLE, WEIR'S CUT-LEAF. One of the most remarkable and beautiful trees, with deeply cut foliage. Rapid grower, shoots slender and drooping, almost as graceful as the Weeping Birch. 6 to 8 ft., \$2.00 each.

MOUNTAIN ASH, EUROPEAN. Fine, hardy tree, covered from July till winter with clusters of bright red berries. 6 to 7 ft., \$2.50 each.

MULBERRY, TEA'S WEEPING. Perfectly hardy, forming a natural umbrella-shaped top or head. 6 to 7 ft., \$2.50 each.

OAK, PIN. A magnificent tree for lawn and street planting. 6 to 8 ft., \$3.00 each.

OAK, RED. Makes a tree of great height, 50 to 75 feet. A beautiful specimen for park and street planting. 6 to 8 ft., \$3.00 each.

ORIENTAL PLANE. Is among our tallest trees, growing rapidly into massive proportions. Hardy and free from disease. It does well in cities and near the seashore. 6 to 8 ft., \$1.50; 8 to 10 ft., \$2.50 each.

POPLAR, CAROLINA. Rapid grower; large, glossy leaves; fine for shade. 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.50 each.

POPLAR, LOMBARDY. A well known, upright and extremely rapid growing tree; it branches down to the ground and is used very satisfactorily for screen purposes. Also used for formal effects on account of its pyramidal form. 6 to 8 ft., 75c; 8 to 10 ft., \$1.00; 10 to 12 ft., \$1.50 each.

SALISBURIA (Maidenhair or Ginkgo). A singular and beautiful tree; foliage curiously lobed and marked with delicate maidenhair fern-like leaves. 6 to 8 ft., \$3.00 each.

TULIP TREE OR WHITEWOOD. One of our largest native trees, with large, glossy leaves, shaped like a violin, and beautiful tulip-like flowers. Very desirable for planting on lawns, or where trees are desired for rapid growth. 6 to 8 ft., \$2.00; 8 to 10 ft., \$2.50 each.

WILLOW, BABYLONIAN (Weeping Willow). An old favorite. Tall, graceful, drooping tree with wavy, bright green foliage. 6 to 8 ft., \$1.25 each.

WILLOW, CAPREA (Pussy Willow). Cultivated variety of Pussy Willow; quick growing, shrub-like tree, useful for tall background or screen purposes, with fur-like catkins along its branches early in the spring. 3 to 4 ft., 75c each.

WILLOW, GOLDEN. Upright growing, very showy variety with golden bark of high color, very conspicuous in winter. 6 to 8 ft., \$1.00 each.

WILLOW, WISCONSIN WEEPING. Similar to the Babylonian Willow, but much hardier. 6 to 8 ft., \$1.25 each.

WILLOW, WISCONSIN WEEPING

Makes a Pleasing Contrast With Other Trees, and Is Particularly Attractive Near Water

Evergreen Shrubs

Some of the most desirable material for landscape planting is found here. These shrubs present a magnificent display of beauty and color when in bloom during the early spring, particularly the Azaleas and Rhododendrons, with their dark green leaves contrasting sharply with the great clusters of bloom. Their fondness for shady places makes them available for planting about house foundations, in shady corners or other locations where it is difficult to get other plants to grow for lack of sunlight.

Rhododendrons thrive best massed or in groups, and at the edge of the Rhododendron planting, and blending it to the lawn, the dwarf growing Junipers, Azaleas and Evergreen Euonymus are particularly pleasing and appropriate.

These varieties transplant very easily and give immediate effects, but it must be borne in mind that they do not like limestone soils, and thrive most readily in what is known as "woods earth," or ground composed chiefly of decomposed vegetable matter.

Azaleas

AMOENA (Hardy Evergreen Azalea). A low, bushy shrub with small green leaves changing in winter to a rich bronze or coppery brown. In spring covered with a wealth of claret-purple flowers which continue to open for a period of 2 or 3 weeks. 15 to 18 in., \$3.50 each.

LUTEA CALENDULACEA (Flame Colored Azalea). Ranging from flame color through shades of red and yellow, remaining in bloom for several weeks. Grows in cultivation from 6 to 8 feet high. 15 to 18 in., \$2.50 each; \$22.50 per 10.

HINODEGIRI. A compact growing variety, with beautiful, evergreen foliage and brilliant crimson flowers, produced in great masses. 12 to 15 in., \$3.50 each.

Kalmia

KALMIA LATIFOLIA (Mountain Laurel, Calico Bush). Grows 8 feet high, with broad, glossy green foliage. The rose-colored flowers, in large and showy clusters at the ends of the shoots, are of elegant shape and appear in June. Few broad-leaved evergreens are so beautiful in foliage and flower. Fine as a single plant, or with rhododendrons or other shrubbery. 2- to 3-ft. clumps, \$3.00 each; \$25.00 per 10; \$200.00 per 100.

Rhododendrons

CAROLINIANUM (Carolina Rhododendron). Most beautiful of American Rhododendrons. Flowers appear in June, in great profusion, a beautiful pink. This variety will stand exposed locations and is perfectly hardy, thriving in either sun or shade. 2- to 3 ft. clumps, \$4.00 each; \$35.00 per 10; \$300.00 per 100.

CATAWBIENSE. Flowers a bright rose-purple, borne in large clusters at the ends of the branches. Perfectly hardy in Northern latitudes and one of our very finest broad-leaved evergreens. 2- to 3 ft. clumps, \$4.00 each; \$35.00 per 10; \$300.00 per 100.

MAXIMUM (Great Laurel). For mass and woodland plantings. Flowers white to pink. Blooms later than other American species, the flowers appearing in July. Grows naturally from Canada south. 2- to 3-ft. clumps, \$3.00 each; \$25.00 per 10; \$200.00 per 100.

WRITE FOR SPECIAL PRICES ON CARLOADS AND LARGER SIZES OF RHODODENDRONS AND KALMIA

Hybrid Rhododendrons

We list only such varieties as are found absolutely hardy here. They are the most satisfactory of all Rhododendrons for general planting, for lawn groups, and for borders near the residence. The colors are most brilliant.

Price, 18 to 24 in. clumps, shipped with ball of earth, \$5.00 each.

PURPUREUM ELEGANS. A pleasing purple, a strong grower, blooming freely.

ROSEUM ELEGANS. Fine, rose-colored flowers, foliage dense and of fine color. One of the best.

CHAS. S. SARGENT. Large flowers of rich crimson, free flowering, very desirable.

GRANDIFLORUM ALBUM. A beautiful white, flowering freely, splendid grower.

Cotoneaster - Horizontalis

Dwarf shrub with densely spreading, horizontal branches, almost prostrate. Leaves dark green, flowers pinkish white, fruit bright red. Used with splendid effect as a ground cover, for the front of border or in rockeries. Especially valuable for rich autumnal coloring of its leaves and the conspicuous berries which brighten the fall and early winter. \$1.50 each.

Leucothoe

LEUCOTHOE CATESBAEI (Drooping Andromeda). A choice native evergreen shrub of great beauty and value; desirable for its foliage, quite as much as for its blossoms, which are creamy white; foliage heavy, shining green in summer; leaves and flower buds assume a beautiful purplish red late in the fall, which is retained throughout the winter; branches arching; superb for table decoration in winter; very desirable for edging plantings of evergreens and rhododendrons; perfectly hardy; should be more generally planted. 18 to 24 in. selected clumps, with ball, \$2.00 each; \$20.00 per doz.

PACHYSANDA TERMINALIS. A trailing plant, growing about 6 to 8 inches high, forming a broad mat of bright, glossy green foliage, with small spikes of whitish flowers during May and June. Invaluable as a ground cover plant in either sun or shade. One of the best for edging the shrub border, planting under evergreens or large trees. Set one foot apart. \$3.00 per doz.; \$18.00 per 100.

YUCCA IN FULL BLOOM

YUCCA (Adam's Needle). Tropical looking plant with immense pyramidal clusters of creamy flowers. June to July. 35c each.

NEW VARIEGATED YUCCA. Wonderful new plant of lasting year-round beauty. Absolutely hardy. Most effectively planted in front of shrubbery, or in grouped beds, especially in winter, when the deep green leaf with yellow margin makes a beautiful contrast with the snowy background. Winter appearance is equally beautiful as in the summer flowering period. Grows to 3 to 4 feet high, blooming in June and July in many tall stalks of cream white flowers. \$1.00 each.

DAPHNE CNEORUM (Garland Flower). Dwarf, trailing evergreen plant, having an abundance of narrow, glossy green leaves. Noted for the spicy fragrance of its bright pink flowers which appear in round clusters at the tips of the branches in May and again in August. Very desirable for the evergreen border, at the edge of rhododendron plantings and for rockeries. \$1.50 each.

A VIGOROUS, HARDY RHODODENDRON

Hardy Ornamental Shrubs

Shrubs are as much a part of the well balanced garden as the lawn or flower borders. Many of them are as decorative as any ornamental foliage plant, while others are highly useful as cut flowers, and a well-arranged planting presents an attractive appearance throughout the entire year.

We have tried to include in this list of the best plants, varieties that are always satisfactory over wide areas, and whose blooming period covers the year, from earliest spring until late autumn. We ask especial attention to the varieties with the double charm of bloom and ornamental fruit or berries.

Shrubs for Special Purposes

For Shady Places. Azalea, Barberry, Cornus, Clethra, Hydrangea Arbor-cernis, Privet, Forsythia, Euonymus, Honeysuckle, Kalmia, Rhododendrons, Snowberries and Viburnums.

For Foundation Planting

Dwarf Growing for Edging Beds. Barberry, Deutzia Gracilis, Spirea Bumalda, Spirea Anthony Waterer, Spirea Thunbergii and Regel's Privet.

Medium Growing for Backgrounds. Spireas, tall varieties; Deutzias, tall varieties; Forsythia, Hydrangea, Weigela, Snowberries and F. J. Grootendorst Rose.

Tall Growing for Heavy Plantings or Corners. Tamara Aestivalis, Amoor River Privet, Altheas, Philadelphus, Bush Honeysuckle and Lilacs.

Shrubs Whose Flowers are Succeeded by Ornamental Fruit. Barberry, Elder, High Bush Cranberry, Euonymus, Rosa Rugosa, Snowberries and Callicarpa.

Shrubs with Variegated or Colored Foliage. Althea Variegata, Elder Golden, Prunus Pissardi, Syringa Golden, Weigela and Spirea.

Almond

PINK DOUBLE FLOWERED. A vigorous, beautiful tree, with blossoms like small roses; hardy. \$1.00 each.

WHITE DOUBLE FLOWERED. Same as above except blossoms are pure white. \$1.00 each.

Barberry Thunbergii-Japanese Barberry

See description under Hedge Plants on Page 22. Extra strong, bushy plants, 2 to 3 ft., 50c each; \$4.00 per 10.

Exochorda-Pearl Bush

One of the showiest and most pleasing of early spring flowering shrubs. Hardy, of full branching habit, grows vigorously to 6 to 8 feet. The unopened buds are pearl-like, opening later into long, gleaming sprays of pure white flowers of delicate fragrance. Useful for cut flowers. Worthy of a place in every garden. 75c each.

Althea-Tree Form

The Althea, as a shrub, is fine and attractive, but grown in tree form becomes doubly beautiful and interesting. It is hardy and of easy cultivation. Varieties same as preceding. Price, \$1.00 each.

Flowers of the Butterfly Bush Brighten the Garden by Their Profusion From July Into Early Autumn. They are Excellent for Cutting.

Althea-Rose of Sharon

Bush Form. 50c each.

Very desirable on account of blooming during August and September.

ARDENS. Lilac with carmine throat. Double.

JEANNE D'ARC. Double, pure white; one of the finest.

BOULE DE FEU. Very double, large, well formed. Red. Very handsome.

DUCHESSE DE BRABANT. Large, double; reddish lilac.

LADY STANLEY. Pale pink, splashed with carmine. Double.

FLOWERING ALMOND
One of the Finest Small Lawn Trees. Its Showy Flowers Make a Gorgeous Display in May

HYDRANGEA ARBORESCENS
Splendid for Shady Places. Blooms August-October

SPIREA, ANTHONY WATERER
Low Growing, Useful in Foundation Plantings in Front of Other Shrubs

FORSYTHIA FORTUNEI
Best Early Shrub to Brighten Spring Landscape

Buddleia - Everblooming Butterfly Bush or Summer Lilac

Flowers very sweet and fragrant, blooming in spikes 6 to 10 inches long, bright mauve-violet in color, closely resembling a lilac in general appearance. Blooms abundantly all summer until frost comes. One of the finest shrubs in cultivation. 50c each.

Callicarpa Purpurea-Beauty Fruit

Splendid berryed shrub for border or massed planting. Grows to about 3 feet. Its graceful branches are covered with tiny pink flowers in August, followed by great masses of violet-purple berries which hang until mid-winter. 75c each.

Calycanthus-Sweet Shrub

Very desirable; the wood is fragrant, foliage rich, flowers of a rare chocolate color, deliciously fragrant; blossoms in June and at intervals thereafter. \$1.00 each.

Chionanthus-White Fringe

Showy shrub, growing to noble proportions, with large, shiny leaves and fringe-like, fragrant white flowers borne in large, gracefully drooping panicles in the spring. Very ornamental bunches of purple fruit in the fall. Attractive as a specimen on the lawn with other tall shrubs. \$1.50 each.

Clethra Alnifolia

(Sweet Pepper Bush)

Very hardy; blooms every season without fail; cold never harms it; flowers pure white, in spikes three to six inches long. A bed of Clethras will perfume the air for a long distance around. A neat, upright growing shrub, worthy of a front place in every garden. 75c each.

Cydonia-Japanese Quince

One of the best hardy shrubs. Covered with brilliant scarlet flowers early in the spring. Makes a beautiful hedge. 75c each.

Cornus-Dogwood

Particularly attractive for the handsome variegation of their foliage and the brilliant coloring of their bark in winter. Valuable planted singly, in groups or masses. Adapted to the shrub border or for screen.

SIBIRICA (Red Branched Dogwood). A rare and remarkable variety. Very conspicuous and ornamental in winter, when the stem and branches are blood-red. 50c each.

ELEGANTISSIMA, VARIEGATED (Silver-Leaf Dogwood). One of the finest variegated shrubs. Leaves beautifully margined with white. Bright red in winter. 85c each.

SPAETHI AUREA (Golden-Leaf Dogwood). Leaves broadly margined yellow, of branching, spreading habit. A very striking variety; one of the finest of recently introduced shrubs; valuable in all plantings for contrast in shrubbery foliage. 85c each.

CORNUS LUTEA (Golden-Bark Dogwood). Conspicuous with bright yellow bark in winter. Makes a fine contrast with the Red-branched Dogwood. 75c each.

DEUTZIA-PRIZE OF ROCHESTER
Best of the Tall Growing Deutzias

The Deutzias

Profuse flowering shrubs in both dwarf and tall-growing varieties. The dwarf forms are among the most useful and attractive shrubs we have for planting in front of taller shrub-beries or wherever low-growing plants are wanted. The tall-growing varieties are effective in the background of the shrubbery border.

GRACILIS. Dwarf-growing, dense shrub, covered with white flowers in June. A charming species, excellent for edging shrub borders. Very hardy. 75c each.

PRIDE OF ROCHESTER. Very large, double, white flowers; blooms profusely. 50c each.

LILAC, PRESIDENT GREVE
The Most Popular Blue Lilac. Splendid for Massed Planting or Single Specimen. See Our Fine Collection of Lilacs on Page 18

PHILADELPHUS VIRGINALIS
The New Double Flowering Mock Orange. Blooms in June and in the Fall

THE HALL MARK NURSERIES

SPIREA VAN HOUTTEI

A fountain of bloom on large, arching stems—the finest of spring blooming Spireas. No home ground is complete without its presence to enrich the landscape. Useful in foundation plantings, specimens or flowering hedges.

Diervilla - The Weigelas

- CANDIDA.** Pure white blossoms in great profusion in June. 75c each.
- ROSEA.** Rose colored flowers in May and June. Its delicate pink blossoms are borne in great profusion all along arching canes, making it an object of unusual beauty at blooming time. Foliage bright green and healthy. 75c each.
- VARIEGATED LEAVED.** One of the best dwarf shrubs. Silvery variegated leaves, flowers nearly white. 75c each.
- EVA RATHKE.** Charming new variety. Brilliant crimson flowers twice in one season. 75c each.

Elder

- GOLDEN.** A beautiful shrub, with golden green foliage when planted in the sun. White blossoms followed by handsome berries. 60c each.

Forsythia - Golden Bell

- FORTUNEI (Golden Bell).** Upright-growing shrub with deep green foliage. Drooping yellow flowers early in the spring before leaves appear. 60c each.
- SUSPENSIVA (Weeping Golden Bell).** Similar to above but branches droop like arches of gold. 60c each.

Hydrangea

Well adapted for borders or shrubberies and unexcelled for foundation plantings. A partially shaded and moist location is best suited for Hydrangea.

- ARBORESCENS STERILIS (Hills of Snow).** Grand, new. Perfectly hardy. Enormous snow white flowers. 60c each.
- PANICULATA GRANDIFLORA.** Hardy in all sections. Flowers immense; greenish white, changing to pure white and turning pink with age. 60c each.
- PANICULATA GRANDIFLORA (Tree Form).** Same as above but in tree form with but a single stem. Very desirable. 3 to 4 ft., \$1.00 each.

ELDER, GOLDEN

Planted Among Other Shrubs in the Sun. It Gives Valuable Color Contrast in Foliage

Upright Honeysuckle

Make very desirable and attractive shrubs, with bright flowers followed by showy berries in the fall. Varieties as follows:

- FRAGRANTISSIMA.** Small pink and white, fragrant flowers appearing early in the spring before the leaves. 50c each.
- PINK TARTARIAN.** Pink flowers in June. 50c each.
- WHITE TARTARIAN.** Creamy white, very fragrant flowers. 50c each.

Kerria Japonica - Globe Flower

A handsome bush with smooth green bark and orange-yellow, double flowers; very pretty and desirable. 75c each.

Lilacs

Unsurpassed for fragrance and beauty, they are among the most hardy of ornamental plants and can be depended upon to grow under a wide range of climatic conditions. Highland Park, Rochester, N. Y., has the largest collection of Lilacs in America, and our list comprises the cream of the well known Highland Park collection. The colors range from pure white, cream, pale azure-blue to deep blue, purple and maroon. All are delightfully fragrant and much more prolific in bloom than the common Lilac.

We offer beautiful specimens, 2 to 3 feet, at \$1.25 each, or the collection of ten, for \$10.00.

Be sure to include this collection of rare and beautiful sorts in your order.

Hybrid Lilacs

- ALPHONSE LAVALLEE.** Clusters like a double hyacinth; very large, blue, shading to violet. Very choice.
- BELLE DE NANCY.** Very large panicles of double flowers, brilliant satiny rose, white center. Fine variety; very free bloomer.
- CHAS. JOLY.** Superb and striking dark variety. Deep reddish purple flowers; large and double.
- CHAS. X.** Magnificent clusters of single, reddish purple flowers. Strong, rapid grower, leaves large and shining.
- MARIE LEGRAYE.** Beautiful single white flowers of immense size; very fragrant. Bush dwarf in habit. One of the most popular.
- MME. LEMOINE.** Superb clusters of pure white, double flowers. A grand variety.
- MICHAEL BUCHNER.** Very large, erect panicles of double, pale lilac flowers; distinct and fine. Dwarf grower.
- PRESIDENT GREVY.** Blue. Flowers largest of all, double, a beautiful shade. Blooms profusely.
- RUBRA DE MARLEY.** Flowers single, rich, rosy purple. An exceedingly free bloomer, and one of the finest varieties.
- SOUV. DE LUDWIG SPAETH.** Panicles long, individual flowers large. Single, dark purplish red. One of the finest of its color.

Old-Fashioned Bush Lilacs

2 to 3 feet

- PURPLE.** Bluish purple flowers. Standard variety; always good. 60c each.
- WHITE.** Cream colored flowers; very fine. 75c each.
- ROTHOMAGENSIS (Rouen Lilac).** Distinctive, narrow leaves and many arching branches. Flowers reddish, of great size, very abundant. One of the finest sorts for mass planting. \$1.00 each.

WHEN YOU BUY HALL'S SHRUBS YOU'LL KNOW THEY WILL GROW

This Hydrangea P. G. was dug in the Nursery in October, in full bloom. Note the strong, vigorous and healthy growth which represents the usual HALL'S QUALITY.

SNOWBERRY

Valued for the showy, attractive berries of autumn. Cut for house decoration, they last splendidly.

Rhus Continus - Purple Fringe or Smoke Bush

Much admired for its purplish misty-looking flowers which give the plant a smoky appearance in the late summer and fall. Good as a single specimen for lawn, or to mass with other tall shrubs. \$1.50 each.

Rhodotypos - White Kerria or Jet Bead

Interesting and beautiful shrub of medium size, succeeds in all soils, in sun or shade. Arching and graceful growth, foliage handsome and distinct. Large, single, white flowers, followed by conspicuous, shining black, bead-like fruit that adheres practically all winter. Hardy; one of the best for general planting. 75c each.

Symphoricarpos

RACEMOSUS (Snowberry). Very ornamental hardy shrub. Small pink flowers, followed by large, waxy white berries which persist into mid-winter. 50c each.

VULGARIS (Coralberry). Vigorous, quick growing shrub, similar to Snowberry except its fruit is red. 50c each.

Tamarix

Shrubs of strong but slender, delicate growth, similar to the asparagus. The pink flowers, filmy foliage and gracefulness make them one of the most desirable shrubs for background or interplanting. Will grow in poor, dry soil where other shrubs fail.

AESTIVALIS. Pink. June. This species has bluish gray foliage, carmine-pink flowers, and also blooms late in the summer. 75c each.

AFRICANA. Deep pink, April and May. This is the most vigorous of any. Sea-green foliage and pink flowers; blooms early. 50c each.

WEIGELA ROSEA

The Pink Weigela is always an old garden favorite with good foliage and flowers in abundance.

Philadelphus - Syringa or Mock Orange

Hardy, free-flowering shrubs, justly called "grand shrubs," which add beauty, grace and perfume to our gardens. They have showy, fragrant flowers in spring and early summer. Any well drained soil is suited to their requirements.

AVALANCHE. Flowers white, larger than those of Coronarius, round, possessing a sweet odor, and produced abundantly. Dwarf, compact habit. 75c each.

CORONARIUS (Common Syringa or Mock Orange). Pure white, highly scented flowers; blooms very early. 50c each.

FOLIIS AUREUS (Golden Syringa). A plant of medium size with golden yellow foliage that keeps its color the entire season if planted in the sun; valuable for striking contrasts with other shrubs. Very sweet scented. 75c each.

MONT BLANC. A charming variety of dwarf habit, with very large, fragrant flowers, produced in great abundance. 75c each.

VIRGINALIS. We consider this the most beautiful white-flowering shrub introduced during the last quarter of a century. Far exceeds any other Mock Orange in beauty and form; unusually large, double blooms, pure white; sweetly scented; in clusters of five to seven, resembling a bride's bouquet of orange blossoms, and ranking among the best for cutting. Blooms in June and continues over a long period. A vigorous, tall grower, this new Philadelphus is being used with striking effect as a hedge, also makes wonderful individual specimens. \$1.00 each; \$9.00 per 10.

SPIREA ANTHONY WATERER

Showing the vigorous root system and top growth of Hall's Specimen Shrubs that readily take hold in new localities.

Spirea - Meadow Sweet

This family contains more attractive varieties than any other. They range in height from very dwarf to tall; color of blossoms from white to red; and period of bloom from early April to August. It contains a large number of species and these we catalog are really the choicest. All are very attractive and they are not particular as to soil.

ANTHONY WATERER. New, dwarf-growing variety, crimson flowers, blooms all season. 75c each.

AUREA (Golden-Leaved Ninebark). An interesting variety, with golden yellow tinted foliage and double, white flowers in June. Very conspicuous. 50c each.

NEW SPIREA BETHLEHEMENSIS. A very fine new variety. A robust, upright grower. Plant and flower resemble S. Billardi, but flowers are much larger, bright pink, borne in dense spikes about 6 inches long. Excellent for cut flowers. 50c each.

BILLARDI. Fine foliage, with spikes of red colored flowers during summer and fall. 50c each.

BUMALDA (Pink Anthony Waterer). A bushy dwarf plant with rosy pink flowers. Blooms in great profusion from July until frost. 75c each.

PRUNIFOLIA (Bridal Wreath). A superb old-fashioned variety with graceful, upright, slender branches covered with a wreath of white flowers in May. Leaves turn to beautiful orange. 75c each.

THUNBERGII. Dwarf growing shrub of graceful form; slender, drooping branches. Narrow, yellowish green foliage, giving a light, feathery appearance. Pure white flowers; blooms very early in the spring. 50c each.

VAN HOUTTEI. Grandest of all. A fountain of white flowers in early spring. 50c each; \$4.00 per 10.

Viburnum - The Snowballs

In this group are some of the most conspicuous shrubs for blossoms, berries or autumnal foliage. They are all hardy, vigorous and healthy. For individual specimens or shrubbery borders they are desirable. Most of them will grow in partial shade but do better in the sun.

PLICATUM (Japan Snowball). Completely covered with large balls of pure white flowers in June. Its dark, plicated foliage and massive clusters of bloom are not equaled by any other shrub. \$1.00 each.

OPULUS STERILE (Common Snowball or Guelder Rose). An old-time favorite, without doubt one of the best flowering shrubs. Handsome, showy flowers in large, globular clusters. 75c each.

OPULUS (High Bush Cranberry). Very fine in flower, and berries are scarlet and hang on well into winter. Flat-topped clusters of white flowers late in spring. 75c each.

Hall's DeLuxe Garden Perennials

Easy-to-make—Perennial Gardens

The planting of a Perennial Garden is very simple; once planted these perennials bloom gaily year after year, prospering with little or no attention. Radiant in their bright color combinations, fascinating in form and detail. Old-fashioned flowers—to beautify your garden, a bouquet—or cut flowers for the table. Everyone should plant a Perennial Garden, no matter how complete your home is landscaped.

This special selection will provide flowers all season in a variety of colors and blossoms that cannot be excelled. Price (except where noted), 30c each; \$2.50 per 10.

ACHILLEA, The Pearl. Strong, showy heads of pure white, double flowers, borne in great profusion. June to September.

ANCHUSA, Dropmore. Strong, vigorous plant with large gentian-blue flowers during June and July.

ANEMONE, Whirlwind. Showy autumn blooming plant, very hardy, blooms freely from August till cut down by frost. Semi-double, white. 35c each.

A. Queen Charlotte. Very large, semi-double flowers of a soft silvery pink. 35c each.

AQUILEGIA (Columbine).

California Hybrid. 2 to 2½ feet, May to July. A single, long-spurred variety of mixed colors, red, blue, white and yellow.

CAMPANULA. The well known "Canterbury Bells"; its numerous branches crowded with deep bells, the edges softly rolled back and fluted. Blooms in July, height 2 to 3 feet. Colors blue, rose or white and mixed colors.

COREOPSIS Grandiflora. Rich, golden yellow flowers from early summer until fall.

CHRYSANTHEMUM. Bloom profusely at a time when other plants have been nipped by frost. Colors white, yellow, brown, red, pink and bronze.

DAISY, Shasta. Large, snowy-white flowers in bloom all summer.

DELPHINIUM (Larkspur).

Belladonna. Beautiful, hardy plants, stately habit, handsome spikes of clear turquoise blue.

D. Formosum. The old favorite; flowers dark blue with white center.

D. GOLD MEDAL HYBRIDS. The newest, best and finest varieties to be secured anywhere. Range of colors varies from the palest shades of blue to deepest indigo-blue and royal-purple, with many intermediary pastel tones. Among these wonderful new hybrids are flowers of huge size, both single and double. We offer them in mixed colors only.

GYPSOPHILA (Baby's Breath). Masses of minute, pure white flowers during June and July.

Hardy Phlox

Decorative plants of first importance, fine for cutting and will brighten the hardy borders in July and August. Effectively planted massed in single colors for landscape effects, as single specimens, or grouped in perennial or shrub borders. Plant 18 inches apart, and set plants 3 inches deep.

Strong, 2-year, field grown plants; will bloom first season.

B. COMPTE. Brilliant rich French purple. 35c each.

COMMANDER-IN-CHIEF. Exceptionally large. Brilliant cherry red with conspicuous dark eye. 50c each.

COQUELICOT. Brilliant scarlet with crimson eye.

F. G. VON LASSBURG. Pure white, immense panicles.

GENERAL VON HEUTZ. Brilliant salmon-red, white eye.

JULES SANDOW. Beautiful soft pink, large panicles.

MRS. JENKINS. Pure white, very early.

MILLY VON HOBOKEN. New. Bright peach pink with soft mauve suffusion. 50c each.

PANTHEON. Pink or salmon-rose.

RHEINLANDER. Salmon-rose, dark red eye.

RIJNSTROOM. Beautiful, clear pink.

RICHARD WALLACE. White with large carmine eye.

RIVERTON JEWEL. Lovely mauve-rose, with brilliant carmine-red eye.

THOR. Deep salmon-pink overlaid with a scarlet glow. A light halo surrounds the aniline red eye.

VON HOCKBURG. Dark velvety crimson. Very large. One of the finest. 50c each.

Price 25c each (except where noted) or the Entire Collection of 15 as listed above, for \$3.50.

CANTERBURY BELLS
Beautiful and Well Liked. Imposing Plants,
Extremely Showy

DIANTHUS (Sweet William). Old-time favorites, bearing during May and June, a profusion of round-topped clusters of flowers of all shades of red and pink to white.

DICENTRA (Bleeding Heart). Another old-time favorite. Its arching stems bear drooping heart-shaped flowers. Valuable for planting in the shade. Deep rose pink. May to July. 50c each.

DIGITALIS (Foxglove). Long, bell-shaped flowers, on stems 3 to 4 feet high; white and red; very showy. July to September.

GAILLARDIA (Blanket Flower). Large, showy flowers, yellow and orange-red; early summer to November.

CHRYSANTHEMUM—Hardy
Showy and Effective Favorites, Excellent for
Cut Flowers

MILLY VAN HOBOKEN
One of the Finest New Varieties. Trusses and
Flowers Very Large

DELPHINIUMS
Add Glory to Any Garden. Most Popular Blue Flower

HEMEROCALLIS FLAVA (Yellow Day Lily). Should be included in all perennial plantings. Flowers large, in clusters, golden yellow, very fragrant.

PAPAVER (Oriental Poppy). Showy, large scarlet and red flowers on long stems.

PLATYCODON (Balloon Flower). Star-shaped bluish flowers; very large. June to July.

PYRETHRUM. Sometimes called Spring-flowering Chrysanthemum. Beautiful, large, daisy-like flowers in a variety of brilliant colors, from intense scarlet to pure white. Long stems, splendid for cutting.

STOKESIA (Cornflower Aster). Handsome plants with large flowers of sky-blue color. July to early fall.

TRITOMA (Red Hot Poker or Flame Flower). Tall spikes surmounted by brilliant orange-scarlet flower heads. August to September.

VERONICA Subsessilis. 2 feet. July to September. One of the handsomest blue flowering plants. Spikes completely studded with flowers; fine for cutting.

The Paeonies

Rival the rose in perfection of bloom and color, and provide decorative flowers of great fragrance when cut for the house or porch. They can be planted single or in massed beds, or scattered in groups throughout the shrub or perennial borders, along garden walks, etc. Fine, hardy plants that thrive anywhere, either in sun or light shade, except where water is accustomed to stand. Plant 3 feet apart and set so the eyes will be from 2 to 3 inches below the surface. We offer you sorts that are really worth while, in a wide range of color and blooming throughout the season.

ALBERT CROUSSE. Wonderful in form and color. Immense, very full, ball-shaped flowers of delicate shell-pink. Fragrant, profuse bloomer. Late. \$1.00 each.

EDULIS SUPERBA. The pink variety used so extensively on Memorial Day. Very early, fragrant as a rose, one of the best. 75c each.

FELIX CROUSSE. Large, globular flowers, of rich, even, brilliant red. Exceptionally fiery, bright and effective. Late mid-season. \$1.00 each.

FESTIVA MAXIMA. One of the finest whites in existence. Marvelous flowers of June rose fragrance. Early. 75c each.

LIVINGSTONE. The best late pink. Large, compact, double flowers of soft, rosy pink with silvery reflex. \$1.00 each.

OFFICINALIS RUBRA PLENA. The very early, old, double red from grandmother's garden. Large, globular flowers of pleasing, rich fragrance. \$1.00 each.

SPECIAL COLLECTION OFFER, one each of these six varieties for \$4.25.

New and Rare Paeonies

The World's Best Varieties

CLAIRE DUBOIS. A wonderfully beautiful sort. Very large, double, globular flowers of rich, clear, satiny pink with glossy reflex and beautiful silvery sheen. Late mid-season. \$1.50 each.

KARL ROSENFELD. A brilliant and striking variety. Large, solidly built flowers of fine form, fully double, rich, clear, glowing crimson. \$2.00 each.

SARAH BERNHARDT. A magnificent sort. Flowers of remarkable size and unusual perfection of form. Apple blossom pink, each petal silver-tipped. Late mid-season. \$2.00 each.

THERESE. One of the most beautiful Paeonies in existence. A most magnificent variety. Compact, rose-type, fragrant flowers of enormous size, exquisitely lovely; brilliant, bright satiny pink with exquisite lavender shades and lighter center. A charming addition to any collection. Mid-season. \$5.00 each.

HARDY CARNATIONS (New). Flowers large, very double, almost rival greenhouse carnations in size and beauty. We offer them in pink, white, red and yellow. 50c each.

THE HARDY PINKS. The good old-fashioned Pinks. Of dwarf habit, and delightfully spicy fragrance. Especially useful for edging perennial borders.

HIBISCUS (New Giant Mallow Marvels). Giant plants, growing 5 to 8 feet, with enormous flowers. Vividly showy, thrive in any soil; bloom from early in July until late September. We offer pink, red and white. 35c each.

HOLLYHOCKS. Everyone knows these garden plants with their colossal spikes of bloom, 4 to 6 feet high. They make a very effective background for the perennial border, and are also good when planted among shrubs. In colors double red, pink and white.

IBERIS SEMPERVIREMS (Hardy Candytuft). 8 to 10 inches. April to July. White. A dwarf border plant with evergreen foliage. Suited for edging and rockeries.

JAPANESE IRIS. These gorgeous Irises are the most delicately beautiful of all our summer flowering plants. We offer separate varieties, with flowers in varying shades of white, red, blue, purple and violet, at 35c each; \$3.00 per 10.

TALL, BEARDED IRIS. The true "Fleur de Lis" of France. Grow and bloom luxuriantly. Deliciously fragrant; fine for cutting. Colors range through richest yellows, intense purple, delicate blues, soft mauves, beautiful claret-reds, white, every imaginable shade.

FLOWER SPRAYS OF DICENTRA
One of the Choicest Members of the Old-fashioned Garden

RUDBECKIA PURPUREA (Purple Coneflower). Grows and thrives everywhere, giving a wealth of bloom well suited for cutting. Flowers large, with drooping petals of a peculiar reddish purple, with remarkably large, cone-shaped center of brown. Blooms from July to October.

SPIREA (Goat's Beard or Meadow Sweet). Elegant border plants with feathery plumes of flowers and attractive foliage. Do best in partial shade, in rich, moist soil.

S. Palmata. Broad corymbs of crimson-purple flowers in June and July.

S. Ulmaria. Double, white flowers in June and July.

A Hedge of Amoor River Privet and a Catalpa Bungei or Umbrella Tree

Hedge Plants

A good hedge sets off a place in such a way that it makes both house and grounds more attractive and more valuable. It is like the frame to the picture. A lawn hedge is permanent, time adds greatly to its beauty, and once planted only occasional shearing is required.

A hedge is also a protection, saves the lawn from animals and trespassers, gives privacy, and insures more respect from the passer-by.

And in many of our cities and towns the streets are transformed into attractive gardens separated by living green fences which give as much protection and privacy as the old style ones of wood or metal, and at the same time add greatly to the beauty of each individual home.

CALIFORNIA PRIVET. Most popular half-evergreen hedge. Remarkably beautiful, glossy, dark green foliage; strong, rapid grower. It transplants easily, grows quickly, making a hedge the first year, and succeeds in almost any soil. The plants should be set about 8 inches apart and cut to 3 or 4 inches above the ground after planting to make the hedge bushy at the bottom. 12 to 18 in., \$4.00 per 100; 18 to 24 in., \$6.00 per 100; 2 to 3 ft., \$8.00 per 100.

BARBERRY THUNBERGII (Japanese Barberry). Brilliant green foliage, turning to most glowing colors from autumn to December. Loaded with scarlet-crimson berries after leaves fall. Hardy where Privet is not. One of the best shrubs to plant against the foundations of a house or in front of taller growing shrubs. 12 to 18 in., \$15.00 per 100; 18 to 24 in., \$20.00 per 100. Extra strong plants for use as shrubs or screens in front of porches, 50c each; \$4.00 per 10.

BOX-BARBERRY. The new hardy dwarf hedge and border plant. A dwarf form of the popular Barberry Thunbergii; equally as sturdy, hardy and dependable, varying from it only in its dwarfer, compact and upright habit of growth. Excellent for low edging for formal gardens when set four to six inches apart and kept trimmed. Also makes a beautiful low hedge when set 6 to 12 inches apart. Price, strong, 8 to 12 inch plants, \$3.50 per 10; \$30.00 per 100.

AMOO RIVER NORTH PRIVET. One of the best hedge plants because of its extreme hardiness. Similar to the well known California Privet, but much harder. A valuable shrub for hedges and borders in cold and exposed places. Of fine, upright growth with lustrous dark green foliage, nearly evergreen. Transplants easily, grows quickly, making a hedge the first year, and succeeds in nearly any soil. Set plants 8 inches apart in single rows and cut back to 4 inches above the ground to make hedge bushy at bottom. 12 to 18 in., \$9.00 per 100; 18 to 24 in., \$12.00 per 100; 2 to 3 ft., \$15.00 per 100.

GLOBE SHAPED PRIVET. Handsome, perfect specimens, specially trained for formal effects. Compact and properly sheared to perfect balls. Decidedly ornamental for decoration of entrances, to plant in tubs, etc. This is a very popular plant, especially at seashores, where evergreens of many varieties fail to thrive. At Atlantic City, N. J., one can see thousands of both Standard and Globe Shaped Privet, at which point it retains its foliage all winter long. 18 to 20 inch diameter, balled and burlapped, \$2.50 each, or \$4.00 per pair.

Standard Privet

Globe-shaped heads on sturdy stems. A wonderful plant for the lawn, also fine for planting in tubs, very much resembling the expensive Bay Tree formerly imported from Europe. Very desirable to plant in groups of Evergreens.

SPECIMEN PLANTS—2½ ft. stems, with oval heads, 12 to 15 in. in diameter, \$3.00 each or \$5.00 per pair.

REGEL'S PRIVET. A low, spreading variety, being very twiggy, with a dense foliage not so glossy as California. Because of its graceful appearance, hardiness and adaptability to any soil and shady places, it is the most widely used Privet for landscape work. 18 to 24 in., 50c each; \$40.00 per 100.

GLOBE SHAPED PRIVET

New Red-Leaved Japanese Barberry

(See Colored Illustration on Back Cover)

It is only once in a lifetime that a really worth-while, outstanding novelty in hardy shrubs is introduced, and in this new Barberry we have such a plant.

It is similar in all respects to the green-leaved Japanese Barberry which is so popular for mixing in the shrubbery border, as single specimens, or for planting in clumps on the lawn, as well as for foundation plantings and for hedges. But its foliage, as it develops in early spring, assumes a rich bronzy-red color, similar to the richest red-leaved Japanese Maple, which it retains from early spring until fall. Becomes more brilliant and gorgeous throughout the summer, and in the fall its foliage changes to vivid orange, scarlet, and red shades, more brilliant and more effective than in the ordinary Japanese Barberry. In this coloring it is unequalled by any other shrub and is followed by the same brilliant scarlet berries common to the type, which remain on the plant the entire winter.

Must be planted in full exposure to the sun to develop its brilliant coloring at all seasons.

One year plants, 60c each, \$6.50 per doz., \$50.00 per hundred.

BARBERRY THUNBERGII

Makes a Lovely, Informal, Low-growing Hedge. Extremely Hardy, Does Not Need Shearing

New Dwarf Privet Lodense

This is a new dwarf and distinct form of Privet, of extremely compact and low-growing habit. The foliage is rich, dark green and is of extreme hardiness. It fills an especial need for an easily grown, low-priced plant, suitable for low hedges and borders, as it stands shearing very well and can be kept in low, compact form with very little trouble or attention. Strong, 2-year plants, 6 to 10 in., \$1.50 per 10; \$12.00 per 100.

Hardy Vines for Various Purposes

In every garden, near every house, there is a trellis to be covered, a fence to be hidden, an old stump or tree, a view to be shut out by a screen, a wall, or a veranda to be shaded; and to adorn or cover these bare objects, Climbing Vines with good foliage or attractive flowers furnish a combination of utility and beauty. We offer a carefully selected list to fit different situations.

Ampelopsis

VEITCHI (Japanese or Boston Ivy). This hardy variety clings firmly to the side of a house or wall, and will soon form a perfect mass of foliage. The leaves overlap with wonderful regularity. In autumn this handsome climber manifests its greatest beauty, becoming a glowing mass of the brightest shades of crimson, scarlet and orange. Strong vines, 50c each.

QUINQUEFOLIA (American Ivy or Virginia Creeper). A native climber of vigorous growth; a fine green in summer changing to rich crimson in fall. It affords shade quickly; desirable for covering walls, verandas or trunks of trees. Strong vines, 50c each.

Polygonum Auberti-Silver Lace Vine

One of the most desirable climbers; the plant is of strong, vigorous growth, attaining a height of 25 feet or more, producing through the summer and fall great foamy sprays of white flowers, and a well established plant during its long flowering period is a mass of bloom. It is perfectly hardy and readily adapts itself to the most varied climatic conditions. Extra strong plants, \$1.00 each.

Clematis

PANICULATA (Virgin's Bower). One of the most satisfactory and desirable hardy vines. Strong, rapid grower, quickly covering trellises, arbors, fences, etc., with handsome, clean, glossy green foliage. Flowers star-shaped, medium size, pure white, deliciously fragrant, and borne in greatest profusion in August and September, when few other vines are in bloom. 50c each.

LARGE FLOWERING CLEMATIS. As hardy climbing vines it is hard to find any which exceed the beautiful large-flowering Clematis in attractiveness. Should be grown in rich, deep soil and planted with the crowns three inches beneath the surface of the soil. Need perfect drainage, abundance of water and should be well mulched with rotten manure in winter. 75c each.

HENRYI. Finest white Clematis. Flowers very large; single.

JACKMANI. Best purple sort. Single, very large.

MAD. ED. ANDRE. Distinct and fine. Flowers deep crimson, velvety.

RAMONA (New). Deep sky-blue, distinct from any other kind; very attractive. Extremely hardy. \$1.00 each.

Wisteria

One of the best and most rapid growing climbers, attains immense size. Good for heavy trellises, well adapted for covering pergolas, also attractive if trained to old trees.

Here in one of our suburban tracts Wisteria Vines, with Euonymus Radicans at the base have been planted at each street light pole. And at night the light streaming down on these decorative vines with their long, pendent plumes of flowers gives a strikingly beautiful effect and one not easily forgotten. Perfectly hardy.

CHINESE PURPLE. Beautiful, long, pendent clusters of pale blue flowers in the spring and late in summer. 75c each.

CHINESE WHITE. Same as the Chinese Purple except the flowers are pure white. \$1.00 each.

CLEMATIS PANICULATA

One of the Finest Porch Vines. Its Mass of Beautiful White Flowers in Autumn Almost Hide the Vine and Always Win Admiration

EUONYMUS RADICANS (Evergreen Bittersweet)

For Covering Walls and Chimneys Nothings Equals this Absolutely Hardy Evergreen Vine

DUTCHMAN'S PIPE

Gives Densest Shade and Also Protection from Rain Because of the Overlapping of Its Large Leaves

Aristolochia - Pipe Vine

DUTCHMAN'S PIPE. A magnificent hardy vine of rapid growth with very large heart-shaped leaves and brownish flowers resembling a miniature pipe; splendid for archways or verandas. \$1.00 each.

Euonymus - Bittersweet

RADICANS. Deep green foliage; useful for covering low foundation walls, or may be clipped the same as boxwood for an edging plant. 75c each.

RADICANS VEGETUS (Evergreen Bittersweet). A strong growing variety, with larger leaves than the type, and producing bright orange-red berries, which remain on the plant the greater part of the winter. As an evergreen, absolutely hardy wall cover this plant is unequalled. 75c each.

Lonicera - Honeysuckle

HALL'S JAPAN—This popular climbing vine is noted for its strong growth. Deep green foliage which is almost evergreen. In use everywhere for a screen because of its beauty and fragrance. Very fine for covering trellises, rocks, dry banks, porches, arbors and similar locations. Fragrant, yellow and cream flowers from July to December, providing a long season of bloom. 35c each; \$3.00 per 10.

AMPELOPSIS Veitchi (Boston Ivy)

This foliage is restful—increasing the charm and value of your property

THE HALL MARK NURSERIES

Northern Grown Apples

No fruit can take the place of the Apple as a food product. Indispensable for family use, no other fruit is so healthful. We offer the leading varieties, the best in cultivation.

Price of Standard Apples and Crabs (except where noted)
extra strong, selected trees, 2 and 3 year:

6 to 7 feet, 75c each; \$6.00 per 10; \$50.00 per 100.

Summer Apples

SWEET BOUGH. Large, pale green, juicy and sweet, rich flavored. Desirable for eating. Should be in every home garden. Bears young and abundantly.

ASTRACHAN RED. A favorite in all sections, combining all good qualities of fruit and tree. Above average in size, flesh white, juicy and rich; especially good eating Apple; ideal cooker. Tree very hardy, productive, bears very young.

YELLOW TRANSPARENT. Good size, smooth, waxy, cream-yellow skin; flesh white, fine grained, pleasantly flavored. Fine for both eating and cooking. Tree of iron-clad hardiness, adapted to all soils and climates. Bears very young, yields immense crops every year. The best of the Harvest Apples.

NEW CORTLAND APPLE
An Improved McIntosh. Superior to All Existing Varieties

Fall Apples

DUCHESS OF OLDENBERG. Good size, handsome, streaked yellow and red; juicy and pleasant. Tree one of the hardiest, succeeds both North and South. Bears very young and abundantly.

FALL PIPPIN. Very large yellow Apple of rich, delicious flavor. Valuable for table or market, admirable for baking. Tree vigorous, fine bearer.

FAMEUSE (Snow Apple). Medium size, deep crimson. Flesh snowy white, tender, melting and delicious. One of our finest dessert fruits. Succeeds particularly well in the North.

GRAVENSTEIN. Very large, striped, highly flavored Apple of first quality. Ripens over a period of several weeks, making it ideal for home use or local market. One of the best all-purpose Apples; productive, excellent for all localities.

MAIDEN BLUSH. Splendid staple variety for home garden; also profitable commercially. Medium to large, yellow with crimson blush. Flesh white, pleasant flavor, good eating and fine cooking and drying Apple. Hardy, bears good crops everywhere.

TWENTY OUNCE. Very large, showy, striped yellow and red. Good quality, excellent for culinary purposes. Fine bearer.

WINTER BANANA
An Excellent Dessert Apple, with Banana Perfume

WEALTHY. Of great value because of its exceptional hardiness; adapted to many soils and climates. Large, handsome, brilliant red, splendid quality, crisp, white flesh tinged with pink, full of juice. Good keeper, bears young, heavy crops annually.

Winter Apples

BALDWIN. Large, red Apple of rich flavor and delightful aroma, keeps splendidly well into winter, an excellent shipper. Desirable for its good dessert and cooking qualities. Tree hardy, quick, strong grower, heavy cropper.

DELICIOUS. Large, beautifully colored, striped red over yellow. Flesh tender, with rich, distinctive flavor. Truly Delicious. Hardy, bears young and abundantly.

GOLDEN RUSSET. Medium size, clear golden russet with slight blush. Juicy and high flavored. Hardy; bears well.

GRIMES GOLDEN. Ideal for dessert, thousands buy it in preference to any other for that purpose; also splendid cooker. Medium to large, with delicious sparkling flavor that cannot be described. Keeps well. Tree very hardy, splendid bearer.

JONATHAN. One of the best for either table or market. Brilliant red Apple of high flavor; juicy, fine grained, tender. Keeps well. Productive, bears young, adapted to many sections.

KING OF TOMPKINS COUNTY. Superb red Apple of extraordinary size and good quality. Hardy, vigorous grower, abundant, annual bearer.

MCINTOSH RED. Fruit bright red, wondrously beautiful, with tender, white flesh of splendid flavor, juicy and aromatic. Everyone appreciates McIntosh quality. Fine table Apple, one of the best for home use. Keeps well and is mellow and good until the last. Tree most hardy and vigorous, bears in three to four years, heavy crops; adapted to wide range of territory.

The New Cortland Apple

A new variety of the McIntosh type, originated at, and very highly recommended by the New York State Experimental Station. Tree large, vigorous grower, very productive, regular in bearing, of great hardiness. Fruit larger than McIntosh, more uniform in size, more highly colored, with heavy bloom; richer in flavor, firmer, but just as juicy. Season one to three weeks later, and the Apples do not drop as readily. Cortland is truly an improved McIntosh, and the beauty and high quality of the fruit cannot be surpassed by any Apple in the world.

DELICIOUS APPLE
One of the Finest for Home Use in All the World,
and a Great Commercial Success

Winter Apples—Continued

NORTHERN SPY. Preferred by many for either table use or for cooking purposes. Large, striped red Apple, juicy, with rich flavor, appeals to those who like a spicy Apple that is not sour. One of the finest late-keeping Apples. Tree rugged, strong grower, great bearer.

R. I. GREENING. A great and constant bearer in nearly all soils and situations. Large, greenish yellow, flesh fine grained, tender, full of sparkling juice with a richness of flavor surpassed by few. Excellent for dessert and cooking. Keeps well.

ROME BEAUTY. Large, handsome, bright red Apple. Flavor and quality above the average. Ideal for baking. Tree good grower, hardy, bears third year, never fails to have heavy crops. Adapted to wide range of soils and conditions.

SPITZENBURG (Esopus). Large, handsome, purplish red Apple, famous for its rich, spicy, sub-acid quality and meaty flesh, an old favorite with those who appreciate good fruit.

STAYMAN'S WINESAP. Largest, handsomest and best of the Winesaps. Dark, rich red; flesh firm, fine grained, exceedingly juicy and spicy; flavor and quality above average; one of the finest for baking. Quick, strong grower; wonderfully productive.

TOLMAN SWEET. Best Winter Sweet Apple for all sections. Tree very hardy and productive. Fruit pale yellow, tinged red; flesh white, fine grained, much esteemed for baking and cooking.

WINTER BANANA. Large, wonderfully beautiful, brilliant waxen yellow with red cheek. A most attractive, high quality, juicy Apple, with peculiar, exquisite flavor that delights everyone; tender and delicious, with banana perfume. Especially good for eating out of hand. Tree hardy, bears young, good crops every year, succeeds in nearly all Apple sections.

Crab Apples

Price same as Standard Apples.

Crab Apples succeed equally well in all sections, are perfectly hardy and will succeed in cold sections where only a few varieties of Apples could be grown. Very valuable for cider, preserves and jelly. Trees very ornamental when in bloom or loaded with their highly colored fruit.

HYSLOP. Large, dark red, sub-acid. October.

TRANSCENDENT. Large, yellow with crimson cheek. September.

WHITNEY. Large, greenish, striped with carmine. Juicy and rich. Last of August.

Dwarf Apples

Recommended for city gardens or wherever space is limited. Require so little room that anyone having a few square rods of land can plant enough trees to have a good supply of home fruit. Very productive, usually commence bearing the second year after planting. They make but little shade and may be trimmed and trained on wire to grow in almost any shape. Set 8 to 10 feet apart.

Price of Dwarf Apples. Extra Fine, Selected Trees:

3 to 4 Feet, \$1.00 each; \$7.50 per 10; \$60.00 per 100.

We can furnish the following varieties in Dwarf Apples; for description of fruit, see same varieties under Standards.

Yellow Transparent, Duchess of Oldenburg, McIntosh Red, Red Astrachan, Fameuse, Northern Spy, Wealthy, Baldwin, Rhode Island Greening, Delicious, Rome Beauty, Stayman's Winesap, Cortland.

J. H. HALE
The King of All Peaches

ROCHESTER PEACH
Earliest and Best Yellow Freestone

Binghamton, N. Y., Nov. 4, 1927.

I am writing to acknowledge receipt of apple trees, (300). The stock was found in splendid condition in all respects, and has been pronounced exceptional trees by the several who have seen them. Assuring you I am most pleased with the shipment.

JOHN H. MOSS, M. D.

Peaches

Our Peach Trees are all budded on seedlings grown from natural Peach seeds, collected in districts free from yellows. They are perfectly healthy, free from insects or diseases of any kind, vigorous and long-lived, have splendid roots, and are budded from selected bearing trees. Peaches should be planted about 18 feet apart.

Price of Peaches, Strong, Selected Trees:

4½ to 6 Feet, 50c each; \$4.00 per 10; \$35.00 per 100.

The Celebrated Rochester Peach

Ripens two weeks before Early Crawford, when there is no other yellow freestone of quality on the market. Beautiful golden yellow and red Peach of immense size, solid and heavy; very highly flavored, juicy and delicious; far sweeter than Crawford. Exceptionally hardy, more productive than Elberta and usually bears the second year after planting.

BELLE OF GEORGIA. Uniformly large and showy, skin white with red cheek; flesh firm, white, excellent flavor. Very prolific bearer, fine shipper, a most profitable commercial variety in the North as well as the South. Ripens with Crawford's Early.

CARMAN. Large, yellow, with deep blush. Fine flavor. Extra hardy; bears heavy. Nearly free.

CHAMPION. Best white freestone. Delicious flavor, sweet, rich juicy. Hardy and productive. Finest dessert Peach of its season.

CRAWFORD'S LATE. Very hardy; large, yellow, rich, sweet, free. Last of September.

CRAWFORD'S EARLY. Very large, yellow, rich, sweet; luscious; free. September.

CROSBY. One of the hardiest; abundant, medium, bright yellow, fine quality. Middle September.

EARLY ELBERTA. Golden yellow with red blush. Ten days ahead of Elberta. Larger, more highly colored, better quality; splendid shipper. Extra hardy and a heavy and reliable bearer. Free.

ELBERTA. One of the finest yellow freestones. The standard market sort both North and South; a big money maker.

GREENSBORO. Largest and most beautifully colored early Peach. Good quality, juicy, semi-cling. Productive; extremely hardy.

MOUNTAIN ROSE. Early white freestone; one of the best. Large, juicy, rich.

The Hale Peach

Combines all qualities most desired, either for home or market. Brilliantly colored, deep golden yellow with carmine blush. Skin thick, without fuzz, smooth as an apricot. Flesh deep yellow, firm, fine grained, tender, melting, luscious flavor. Very solid and heavy Peach of immense size, fully one-half larger and harder than Elberta; enormously productive. Perfect freestone. Wonderful keeper and shipper.

THE HALL MARK NURSERIES

Plums

The Plum adjusts itself to every variation of soil and climate. They give huge crops in New England and on the bleak Western prairies, and every state in the Union can grow a good assortment of varieties. Plums come into bearing early, yield large crops and are delicious for dessert, jellies, preserves, etc. Land for Plums should be well drained and on medium or good gravelly soil all kinds can be grown with success.

Price, extra fine, selected trees, 2- and 3-year:

5 to 7 ft., 75c each; \$6.50 per 10; \$60.00 per 100.

American and European Varieties

BEAUTY OF NAPLES. Medium to large, greenish yellow, very sweet, excellent flavor, fine for dessert. Tree very hardy and productive. September.

BRADSHAW. Very large, handsome, bluish purple; juicy, excellent quality. One of the earliest. Tree vigorous, very productive. August.

CELLENBERG (Italian Prune). The largest, best and one of the most widely grown of all Prunes. Dark purple with blue bloom; superb quality, rich, juicy, very sweet. Tree vigorous, very hardy, immensely productive. September.

GRAND DUKE. A very valuable late Plum. Fruit very large, showy, dark violet-red. Flesh firm, juicy, sweet and mild. Tree vigorous and productive.

GERMAN PRUNE. A great favorite. The Prune with the real flavor; grows to perfection everywhere. Valuable for dessert, especially fine for canning. Large, dark blue with dense bloom; juicy, sweet, rich and pleasant. Tree very hardy.

LOMBARD. Most popular and widely planted variety in America. Grows everywhere. Splendid for dessert; also favorite for canning. Fruit large, handsome, violet-red, juicy, pleasant and good. Tree very hardy, bears immense crops every year. August.

MONARCH. Large, dark purple, delicious quality, juicy, very free from stone. Tree strong grower, bears young, yields abundant crops. One of the most valuable.

REINE CLAUDE (Green Gage). Unusually high quality eating Plum, and because of its rich flavor, very best for canning. Large, yellowish green, juicy, melting, sugary, delicious. Ripens late and hangs for a long time on the trees. Tree hardy and very productive. September.

SHROPSHIRE DAMSON (Prune Damson). Does well everywhere. Larger and much more desirable than the Common Damson. Should be planted in every garden. None so good for preserving, marmalade, etc. Tree vigorous, hardy, bears enormous crops year after year. September.

YELLOW EGG. The Best Yellow Plum. Extra large, handsome, sweet and mild, excellent for cooking. Very productive. Last of August.

All varieties of Plums, especially Japanese sorts, make handsome ornamental trees as well as being rich in fruit.

Japanese Varieties

ABUNDANCE. Large, showy and beautiful. Color amber, turning to bright cherry-red; highly perfumed. Flesh light yellow, juicy, tender and delicious; freestone. Tree hardy, strong, upright grower, immensely productive. Should be in every garden. August 1st.

BURBANK. Very large, handsome, richly colored dark red. Flesh yellow, tender, very juicy, rich, sweet and aromatic. Tree spreading, ex-

ceptionally hardy, enormously productive. One of the best for general planting. Ripens week after Abundance.

RED JUNE. A most popular early Plum. Medium to large, deep vermilion-red, very showy and attractive, excellent quality, slightly subacid; half cling, pit small. Tree hardy, upright, very productive. Earlier than Abundance.

NEW JERSEYITES PLEASE NOTE

Our Customers Have Confidence in Us.

March 15, 1927.

In reply to yours of the 14th inst. regarding shipping stock into New Jersey in accordance with the new law, can only say that if the trees you ship are on a par with others that I have received from you, I will take a chance on their being true to name and of the very best quality.

(Signed) GERET H. CONOVER.
Homestead Farm, Middletown, N. J.

Quinces

The trees are hardy, compact in growth, require little space, bear early and rarely have an off year, give big crops regularly every year. The fruit is much sought for canning, makes delicious jelly and preserves. Grow in any good garden soil, which should be kept mellow and well enriched. Fruit should be thinned out if it bears too freely.

Price, extra strong, 2- and 3-year:

4 to 5 ft., \$1.00 each; \$8.50 per 10; \$75.00 per 100.

ORANGE (Apple). Best of the older sorts. Very large, bright golden yellow; fine quality.

REA'S MAMMOTH. Larger than Orange, tree more vigorous and productive. Ripens very early.

ORANGE QUINCE
Has a Great Flavor and Gives Universal Satisfaction

Cherries

Why not grow your own Cherries? It is the safest, surest and most economical way to get the most delicious fruit. No fruit outside of apples generally does so well. Sandy or gravelly soil is best, but trees will thrive in any situation except a wet one. Trees are clean growers and steady bearers, coming into bearing when very young.

The sour varieties are hardy and will grow wherever the apple succeeds. The fruit is always in demand for preserves and pies.

Trees of the sweet varieties are beautiful as well as useful, make excellent ornamental shade trees for the lawn or garden.

A cherry tree in bloom is one of the most beautiful things in all the plant world.

Hearts and Bigarreaus (Sweet)

Price, extra fine, selected trees, 2- and 3-year:

6 to 7 feet, 85c each; \$7.50 per 10

BING. A new black Cherry; originated in Oregon; size large, color blackish purple; flesh very solid and of the highest flavor; tree vigorous, upright, hardy and productive; a fine shipping and market Cherry.

BLACK TARTARIAN. This fine old variety produces immense crops of very large, purplish black fruits of high quality, juicy, meaty, mild and sweet. The tree makes a beautiful, erect growth. Late June and early July.

LAMBERT. One of the largest of all; heart-shaped, dark purplish red, turning to almost jet black when fully ripe. Flesh firm, solid, rich and juicy, with sprightly flavor; seed very small for so large a fruit. Tree rugged, strong grower, hardy, enormous bearer. Late July.

GOVERNOR WOOD. Very large, rich; light yellow with red cheek; juicy and sweet. One of the very best. Tree healthy and vigorous; great bearer. Season late June.

LAMBERT
One of the Most Delicious Sweet
Cherries You Can Grow

SUPERB APRICOT
Largest and Best of All the Varieties of this Delicious Fruit

Dukes and Morellos (Sour)

Price, extra fine, selected trees, 2-year:

5 to 6 feet, 75c each; \$6.50 per 10; \$60.00 per 100.

EARLY RICHMOND. Medium size, dark red, melting and juicy, acid flavor; one of the most valuable and popular of the acid Cherries and is unsurpassed for cooking. Tree slender grower, exceedingly productive and very hardy; will stand the most severe weather.

ENGLISH MORELLO. The standard late sour Cherry. Large and handsome, dark red, becoming almost black. Fruit good quality, tender, juicy, acid, rich. Hangs long on the trees, good shipper. Tree dwarf and slender, very hardy.

MONTMORENCY. Beautiful, large red, acid Cherry of great value; very profitable; more largely planted for market than any other. Prominent for size; larger and sweeter than Early Richmond and fully ten days later. Tree hardy, vigorous grower, exceedingly productive, and the greatest money maker in the list. We recommend Montmorency for the bulk of crop anywhere that Cherries will grow. Late June.

NAPOLEON. Of fine appearance and the very largest size; yellow and amber, with bright red blush; flesh firm, juicy, delicious. Profitable for market, finds a ready sale both for canning and dessert. Forms a grand tree. Bears enormous crops. July.

SCHMIDT'S BIGARREAU. One of the best market varieties, entitled to first place as a money maker. Its glossy black color and round, plump form tempt the eye, while its crisp, firm, juicy flesh and sweet, rich flavor make it delicious to the taste. Tree is a vigorous grower, healthy and productive. July.

YELLOW SPANISH. Large, pale yellow, with light red cheek; firm and delicious. Ripens latter part of June.

Special discount of 8% allowed on all cash orders received on or before March 15th.

5% discount on orders received from March 15th to April 15th.

Apricots

Apricots are a rich, delicious fruit, coming between cherries and peaches. Very much like the peach in outward appearance, but like the plum in quality and texture. One of the finest fruits for drying, and they fill a season when there are no other large fruits.

SUPERB. The best Apricot now offered. Perfectly hardy, has no superior in productiveness. Beautiful yellow with slight blush; flesh firm and solid. One of its many desirable traits is its long season, covering a period of three weeks. Price, \$1.00 each.

NAPOLEON
The Hardest of the Light Yellow Cherries and Deservedly Popular

THE HALL MARK NURSERIES

Standard Pears

The planting of the Pear is rapidly extending as its value is appreciated. Like apples, the range of varieties is had in good eating condition from August until well into the winter.

The melting, juicy texture, the refined flavor and the delicate aroma of the Pear give it high rank among fruits. Pears prefer a strong loam, but succeed well in a great variety of soils, and upon any land that will produce a good crop of vegetables, grain, etc. Pears will keep longer and their flavor will be highly improved if picked before they are fully ripe. Summer Pears should be gathered at least ten days before they are ripe, and autumn Pears at least two weeks. When the trees are heavily laden, the fruit should be thinned when about one-third grown.

Price of Standard Pears (except Beurre Bosc), extra fine, selected trees, 2- and 3- year:
6 to 7 feet, 85c each; \$7.50 per 10; \$60.00 per 100.

Summer Pears

BARTLETT. General favorite. Large, beautiful and excellent; yellow, tinged with red; buttery and melting; rich, musky flavor.

CLAPP'S FAVORITE. Large, showy, fine looking Pear of good quality, profitable for market. Golden yellow with red cheek; melting, juicy, with sweet, delicate flavor.

Autumn and Winter Pears

BEURRE D'ANJOU. Equals Bartlett in quality. Large, handsome, greenish yellow blushed with crimson. Tree hardy, succeeds everywhere, bears heavy crops.

FLEMISH BEAUTY. Large, beautiful, juicy melting, rich and fine. Strong grower and good bearer; hardy everywhere. September and October.

BEURRE BOSC (Thanksgiving Pear). Extra large, superb quality. Deep russet yellow. Flesh white, rich and delicious. Keeps well until Christmas. Price, \$1.00 each.

DUCHESS D'ANGOULEME. Large, greenish yellow; tender, buttery. Best as dwarf.

KIEFFER. Wonderfully abundant, regular bearer. Always sells at good prices. Golden yellow when ripe; flesh white, crisp, juicy.

SHELDON. Medium size, round, russet and red, melting, rich, very juicy, delicious. Fine for dessert; very productive; keeps well; October.

SECKEL (Sugar Pear). Small, finest flavor; excellent for pickling and dessert. 5 to 6 feet.

WORDEN-SECKEL. An improved Seckel; golden yellow with bright crimson cheek; flesh white, buttery, fine grained and melting; tree an upright, vigorous grower, very hardy, abundant bearer. 5 to 6 feet.

Dwarf Pears

The dwarf varieties require less than one-fifth the space necessary for the standard varieties, and though the tree is dwarf the fruit is the same size as standard, and is borne in large quantities. It is valuable both for the home garden and orchard planting for commercial purposes. It is a good filler for apple or standard pear orchards, because it is an early bearer and takes up but a small space. Trees should be planted ten feet apart. We can furnish the following varieties in Dwarf (for description see Standard Pears).

Price, Dwarf Pears, 2- and 3-year, extra fine:
3 to 4 feet, 85c each; \$7.50 per 10.

Bartlett
Kieffer

Seckel
Beurre d'Anjou

Clapp's Favorite
Duchess d'Angouleme

Rhubarb

Have a Rhubarb patch. Six roots set early in the spring will supply a small family. Set plants 2 feet apart in the row. Good culture and plenty of dressing will give profitable returns.

CHAMPAGNE RHUBARB (New). Excels all in size, flavor and delicate tenderness of its crimson stalks. Brings highest market price. Strong, 2-year roots. 35c each; \$2.50 per 10.

Asparagus

This delicious and healthy vegetable should be found in every garden. Nothing can be more easily grown and no plant gives such a healthful food for such a little outlay. Set in the fall or spring with the crown of the plant about three inches below the surface of the ground. Ten to twelve inches by two feet is a good distance to plant.

WASHINGTON. So much better than other Asparagus that it seems to be in a class by itself. New rust-resisting variety developed by the U. S. Department of Agriculture. As a standard variety for fancy Asparagus for the home garden or market it stands above all others in size, vigor, tenderness, quality and rust-resistance. Strong roots, \$1.50 per 25; \$3.50 per 100.

SHELDON PEAR

Delicious for Eating. Should be in Every Home Garden

Grapes

Everyone should have a few Grape Vines in the home garden. They require very little cultivation and returns are quick and abundant. Trained over fences, trellises or doorways, they are ornamental as well as useful. They can be planted on hillsides that are unsuitable for other crops. Sunny exposure is desirable. If planted alongside of fence or buildings, set about 8 feet apart. For vineyard planting, make rows about 8 feet apart and set vines from 6 to 10 feet apart in the row. The plants we offer are strong, 2-year vines, and the following is a list of the best and leading varieties.

New Grapes

The best of the recent introductions. Well tested and worth while. Should be in every garden.

CACO (Catawba Concord). A perfectly hardy Grape that equals the finest hothouse product in its delicious quality and melting texture. Beautiful, large berries, wine-red, with abundant bloom, rich in sugar. Bunch good size, compact and of good form. Ripens before Concord. Vines very strong growers, healthy and prolific bearers. 75c each.

HUBBARD. A superb new Grape for table use. After thorough investigation we have not found one with more excellent qualities. Rich blue in color, bunch and berry large and uniform; skin thin and firm, pulp tender, with a sweet and pleasant flavor most nearly approaching the European Grapes. Seeds few and small, separate freely from pulp. Healthy foliage, strong grower, bears heavily, ripening ten days before Concord. A fine shipper and succeeds in any grape-growing section. 50c each.

PORTLAND. New early white grape, originated at the New York State Experimental Station; remarkable for its luxuriant foliage, with fruit scarcely less remarkable. Vine vigorous, hardy, healthy; very productive. Bunch and berry larger than any other early white Grape. Quality excellent; flesh firm, with an abundance of juice; tender, aromatic, sweet and mild. One of the finest white Grapes in existence; takes first place for home or market. Extra strong, 2-year vines, \$1.00 each.

SPECIAL—One each of these New Grapes for \$2.00.

Standard Grapes

Extra strong, 2-year vines, with long tops and good roots. Price (except where noted), 50c each; \$4.00 per 10; \$35.00 per 100.

BRIGHTON (Red). Large, handsome clusters; flesh rich, sweet, tender, of highest quality; almost seedless. Ripens early, hardy, productive.

CAMPBELL'S EARLY (Black). clusters and berries large and handsome. Flesh firm, but tender, rich and sweet. A most valuable early Grape. Strong, vigorous grower, very hardy.

CONCORD (Black). The Great Business Grape, most widely known and grown of all; succeeds well over a great extent of the country. Vines extremely hardy, vigorous and productive; bunches large, berries large, juicy and sweet. 25c each; \$2.00 per 10; \$15.00 per 100.

DELAWARE. A delicious little red table Grape of highest quality. Bunches small and compact. Berries small, light red, with a violet bloom; sweet, sugary, with musky aroma, justly claiming a place in every garden.

DIAMOND. Large, delicious white Grape; few others surpass it in beauty and quality. Bears early in the season, hardy, very productive.

LUCILE. An extra hardy red Grape. Unsurpassed in vigor, health, hardiness and productiveness. Indispensable in the North where only early and extra hardy Grapes succeed. Ripens before Concord and crops exceed that variety. Good quality, berries large, clusters large and compact, attractive in form and color.

MOORE'S EARLY. Ripens 10 days before Concord. Vines extremely hardy, berries large, purplish black, sweet and good.

CACO GRAPES
Equal in Quality the Finest Hot-House Grown

NEW PORTLAND GRAPE
The Earliest of All Grapes. A Superb New Variety That Should be in Every Garden

HUBBARD
A Superb New Table Grape, Noted for Its Sweet and Pleasant Flavor

NIAGARA. A great yielder, the most widely planted and best known white Grape for market. Bunch and berry large, fine flavor. Ripens before Concord. Vines strong and hardy. 35c each; \$3.00 per 10; \$25.00 per 100.

WORDEN. One of the best Black Grapes. Has the wonderful dependability and productiveness of Concord, but ripens 10 days earlier, larger size, finer in appearance and very much better in quality. We recommend Worden for home use or commercial vineyard.

THE HALL MARK NURSERIES

THE MAMMOTH BLOWERS BLACKBERRY
Outyields All Others

Blackberries

May be grown by everybody; hardy and rugged in growth; heavy and regular producers. Blackberries are the best yielders of cane fruits. Set in rows 7 feet apart, plants 4 feet apart in the row, 1,556 plants to the acre. Keep clean and well cultivated.

Price, strong, 2-year, fruiting canes, \$1.50 per doz.; \$10.00 per 100.

BLOWERS. The Best Blackberry. Originated in the celebrated small fruit belt of Chautauqua County, N. Y., where it has been thoroughly tested. Claimed to be the hardiest, most productive, the finest quality, and to bring on the market the highest price of all Blackberries. Has produced 2,694 berries on one bush, 2,720 quarts on one-third acre. Large size, jet black, good shipper, best quality, unexcelled productiveness are the main characteristics of this splendid sort.

ELDORADO. A strong growing, hardy variety; very productive; fruit very large, jet black, in large clusters, ripening well together. Its keeping quality is unsurpassed. Fine quality, sweet, without core.

RATHBUN. Fruit borne in clusters, berries very large, color intense black with a high polish; small seeds; flesh juicy, high flavored, sweet and delicious. In season medium early.

Raspberries

What is more delicious in summer than a dish of fragrant raspberries brought direct to your table from your own garden? Use a few square feet of your yard to set out some plants this year. They are easy to grow and require little care. To produce the best fruit the old canes should be cut down as soon as they are through fruiting.

Price (except where noted), strong, 2-year, fruiting canes, \$1.50 per doz.; \$10.00 per 100.

Black Raspberries

CUMBERLAND. Largest of all the Blackcaps. The most profitable variety for main crop. A healthy, vigorous grower, throwing up stout, stocky, well branched canes that produce immense crops of magnificent berries. Fruit very large, firm, quality excellent.

HONEY SWEET. The new Blackcap Raspberry. A distinct, new variety, originated in Western New York, regarded by many as the best black Raspberry yet introduced. Fruit very large, jet black, very attractive in color, with a flavor exceedingly rich, sweet and refreshing. Hardy, bears every year in great abundance.

Nursery Stock at Planting Time

When the reports we receive each day from the United States Department of Agriculture indicate that it is planting time where you live, we will ship the trees and plants you order. This makes it possible for you to receive them in excellent condition, and even if the weather should change, they will be so carefully packed as to keep for about two weeks.

Red and Yellow Raspberries

COLUMBIAN. Fruit very large, color dark reddish purple; adheres firmly to the stem; seeds small; has a distinct flavor of its own, making it a most delicious table berry. For canning purposes it is much superior to any other. Bears enormous crops.

CUTHBERT or QUEEN OF THE MARKET. Large, rich crimson; sweet, rich, luscious. Leading market variety for main crop. Hardy.

GOLDEN QUEEN. Large, beautiful, golden yellow berries of highest quality and flavor. Canes hardy, of strongest growth, immensely productive.

HERBERT. The Raspberry with the real Raspberry flavor. Takes first place in hardiness. Bright red; very sweet and juicy. Enormously productive.

LA FRANCE. Phenomenal Everbearing Red Raspberry. Awarded many medals and highest honors at all exhibits. Prodigious bearer from early July until killing frosts, late crops, heavier than the early ones. Berries deep pink, juicy, of delicious flavor, very large, with few seeds, an excellent keeper. Because of its vigorous, rapid growth, extreme hardiness, immunity from fungus and insect pests, and its remarkable all-season productiveness of fruit, La France is by all odds "the" Raspberry for the home gardener, fruit grower or farmer. \$3.00 per doz.; \$20.00 per 100.

LATHAM or REDPATH. A new red Raspberry, originated in Minnesota, now being tested at the New York State Agricultural Experimental Station, and very highly recommended by them. Extremely hardy, splendid, strong growing, producing immense crops of extra large, bright red berries of finest quality. Ripens evenly over a very long season. In great demand, and is one of the best Red Raspberries ever grown.

ST. REGIS (Ranere) EVERBEARING RED RASPBERRY. Bears fruit four months first season planted. Begins to ripen middle of June. Wonderfully prolific, main crop as great as any other red variety. Summer or autumn crops full to heavy pickings all the time. Berries large, firm and full flavored until the very last; rich, sugary. Hardy.

LA FRANCE
New Everbearing Red Raspberry, Finest of Its Class

Beautify Your Home "The Hall Way"

Whether a modest home on a 50 foot lot, grounds of larger extent, or palatial estate overlooking the landscape, we are prepared to help you.

We have a regular Landscape Department for those who wish the advice of plant experts and landscape architects in planning the planting about their homes.

And we have a service designed especially to meet the requirements of the ordinary home owner, so that small grounds or the city lot can be successfully treated through information furnished us. If you have some special problems to meet, it will pay you to have a plan drawn by our landscape architect. You will receive a sketch drawn especially for your grounds,—one that will mean individual beauty and harmony.

We send you cross section paper with full directions, which enables you to plot your house and grounds around it, indicating position of any trees in place, etc., with little or no effort. You send us the plot, our landscape expert studies it and draws you a complete plan, showing what to use and where to plant it, and quoting a group price for the material used. For this plan we make a charge of \$5.00. Then, if you order the material of us, we give you credit for the \$5.00 on your invoice for the stock, so that if you buy the stock of us the plan is yours without cost.

This service is principally for home grounds of moderate size, not for extensive or elaborate grounds, where a large amount of work is involved. But we are also prepared to do this class of work at reasonable terms and solicit correspondence from parties desiring it.

ORDER EARLY

Make your plans early so that your order can be filled while assortments are still complete. As a special inducement we allow the following discount on cash orders:

Before March 15th, 8%. Between March 15th and April 15th, 5%.
No discount after April 15th.

TERMS are Net Cash with Order. Charge accounts will be opened, if desired, with firms or persons of approved credit or who give satis-

factory reference. C. O. D. orders must be accompanied by one-fourth cash.

SHIPPING SEASON. Our regular spring shipping season opens the latter part of March and continues to about the middle of May, but orders for Southern states can be shipped any time after the middle of February. In the fall we start shipping early in October and continue until the ground freezes, which is usually from the middle to the last of November.

GUARANTEE

Every tree, bush or plant is guaranteed up to size specified and strictly A No. 1, healthy, thrifty, well rooted, true to name, and free from San Jose Scale or disease of any kind, and will be packed to reach you in perfect condition. We use the greatest precaution to have everything we send out true to name, but if through any fault of ours any stock proves not true to label, we will on proper proof, replace double the number of trees or plants not true, or we will refund the purchase price, plus 6 per cent per annum, and also replace stock.

L. W. HALL COMPANY, Inc.

No Orders for Less than \$1.00 Accepted

As it costs us just as much to pack and prepare small orders as it does large ones, and inasmuch as the prices we ask are so close to the actual cost of production, we cannot afford to fill orders amounting to less than \$1.00.

WE SEND FULL PLANTING INSTRUCTIONS WITH EVERY ORDER
